# 1 THE TEQ TABLE

## 1.1 THE SPECIFICATION OF THE TEQ TABLE

1.1.1 Length: 3,000 mm (horizontal).

1.1.2 Width: 1,500 mm (without the net).

1.1.3 Width: 1,700 mm (including the net).

1.1.4 Height: 900 mm (including the net).

1.1.5 The curvature of the playing surface of the Teq table is determined by the distance of the highest and lowest points of the surface and by the horizontal distance from the lowest (farthest) point of the Teq table to the height of the net. The highest point of the playing surface – as measured from the ground – is 760 mm, while the lowest point is 565 mm. The horizontal distance between the lowest part of the Teq table and the net is 1,490 mm.

1.1.6 The material of the Teq table's playing surface is HPL (High-Pressure Laminate), composed of a resin impregnated kraft paper, a decorative paper and a clear melamine overlay. These sheets are bonded at high pressures and temperatures.

## 1.2 THE SPECIFICATION OF THE NET

1.2.1 Width: 1,700 mm

1.2.2 Thickness: 20 mm

1.2.3 Height: 140 mm (measured from the surface of the Teq table).

1.2.4 The net must be permanently fixed to the Teq table and must be made from PMMA (plexi), a transparent thermoplastic, lightweight or shatter-resistant alternative to glass.

1.2.5 These specifications describe the Teq One table, which is one of the three types of tables recognised by FITEQ.

1.2.5.1 Teq One - Official "Class A - high-level" sport equipment. This type of tables used at official FITEQ tournaments.

1.2.5.2 Teq Smart - Official "Class B - professional-level" sport equipment. This type of tables used at national and club level tournaments.

1.2.5.3 Teq Lite - Official "Class C - recreational-level" sport equipment. This type of tables used at amateur tournaments.

## 2 THE PARA TEQBALL COURT

### 2.1 COURT MARKINGS

#### 2.1.1 Court surrounds

2.1.1.1 The court must be rectangular and marked with surrounds with a minimum height of 500 mm and a maximum height of 1,500 mm.

2.1.1.2 The court surrounds belong to the areas of which there are boundaries. Court surrounds requirements vary in different competitions.

2.1.1.3 The Teq table is in the exact middle of the court with the net being parallel to the shorter sides' perimeters.

2.1.1.4 During competitions, the colour of the Teq table, the colour of the floor, the colour of the court surrounds and the colour of the ball must all be different.

### 2.1.2 Halfway line

2.1.2.1 The halfway line must be in the middle of the teqball court, dividing it into two equal halves (see illustration).

2.1.2.2 The halfway line must be indicated by a clearly visible stripe, with a minimum thickness of 20 mm and a maximum thickness of 50mm, in a colour different from that of the flooring.

### 2.1.3 Service line

2.1.3.1 The service line must be parallel to the net and 3.5 m away from the middle of the table. Therefore, it is 2 m away from the reflection of the end of the table on the ground.

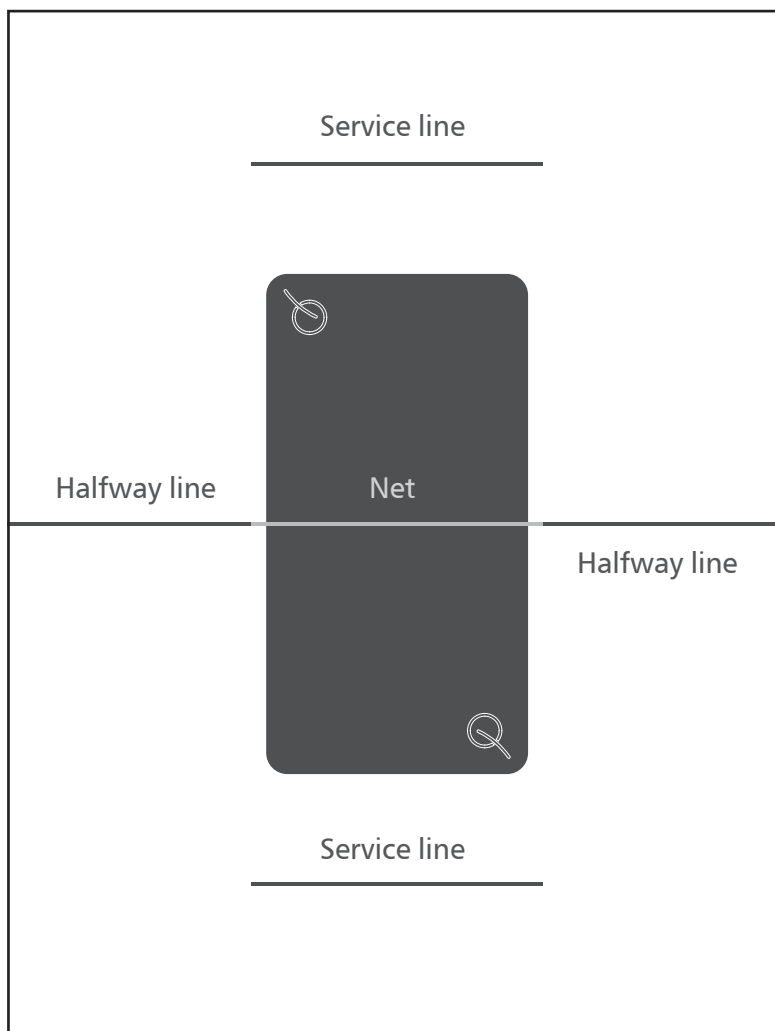

2.1.3.2 The thickness of the service line must be a minimum of 20mm and a maximum of 50 mm, in a colour different from that of the flooring.

### 2.1.4 Dimensions

2.1.4.1 The official competition size of a teqball court is a minimum of 12 m wide by a minimum of 16 m long by a minimum of 7 m high.

2.1.4.2 The sides parallel to the net must be a minimum of 12 m long; the other two sides must be a minimum of 16 m long.

2.1.5 Referees are deemed as part of the teqball court.

## 3 THE BALL

### 3.1 QUALITIES AND MEASUREMENTS

3.1.1 Spherical.

3.1.2 Made of leather or another suitable material and has a latex bladder with a butyl valve.

3.1.3 Has a circumference of not less than 67 cm and not more than 69 cm (size 5 ball).

3.1.4 Weighs no more than 400 g and no less than 370 g at the start of the match.

3.1.5 Has a pressure of between 0.3 and 0.5 atmospheres at sea level.

3.1.6 Measuring is the responsibility of the competition organiser.

### 3.2 REPLACEMENT OF A DEFECTIVE BALL

3.2.1 If the ball bursts or becomes defective during a match, the game is stopped. The Main Referee takes possession of the defective ball and provides the players with a new one.

3.2.2 After the ball has been changed, the game continues from exactly where it was stopped, which means the score remains and the same service preceding the rally that was stopped must be repeated. Where the rally was started with a second service attempt, the player continues with their second service attempt after a 1 minute warm-up with the new ball.

## 4 PLAYERS AND OFFICIALS

### 4.1 PLAYERS

4.1.1 The number of players varies according to the two different match types (see: Match types, 18):

4.1.1.1 Singles: one player per side.

4.1.1.1.2 Para Teqball Sport Class 2 (PTBSC 2) singles: both of the players use prosthesis.

4.1.1.2 Doubles: two players per side.

4.1.1.2.1 Sport Class 1 doubles: all players use supporting equipment, notably crutches. All of the players use a prosthesis are not eligible for Sport Class 1.

4.1.1.2.2 Sport Class 2 doubles: all players use a prosthesis.

4.1.1.2.3 Inclusive Sport Class 1: each team must consist of one player using supporting equipment and one teqball player that is not eligible for Sport Class 1 or Sport Class 2.

4.1.1.2.4 Inclusive Sport Class 2: each team must consist of one player using a prosthesis and one teqball player that is not eligible for Sport Class 1 or Sport Class 2.

4.1.2 One of the players must be selected as captain of a team for an official game. In singles, the players them

selves are the captains. It is the captain's responsibility to participate during the coin toss.

4.1.3 Home player/team is the player/team listed first for the respective match in the draw.

4.1.4 Guest player/team is the player/team listed second for the respective match in the draw.

## 4.2 CLOTHING

4.2.1 Playing clothing consists of a short-sleeved or sleeveless shirt; shorts or skirt or one-part sports outfit; wristbands; cap; headband; and socks and shoes. Unitard or tight-fitting costume may cover the elbows and knees and should be worn underneath the short-sleeved or sleeveless shirt or shorts or skirt (See Diagram). The unitard must be of the same primary colour as the outer uniform and must be clearly distinguishable from their opponents. Clothing must not gain any advantage for the players and must not violate the regulations of the competition organiser.

4.2.2 All items of jewellery (necklaces, rings, bracelets, earrings, leather wristbands and rubber wristbands, etc.) or any unauthorised dangerous equipment are forbidden.

4.2.3 Head apparel is allowed, but must not have any parts extending out from the surface.

Where the Main Referee decides that it is disturbing, the player can be ordered to take off or cover the offending item.

4.2.7 Players/teams are not allowed to wear clothing of the same colour as their opponent/s. The colour of the clothing must clearly distinguish the opponents from each other.

4.2.8 All players in the same team must be dressed in the same colour, same shape, same design and same type of clothing during all matches of a competition. Exception can be made due to religious reasons. Each player/team must have two sets of clothing of clearly different colours.

4.2.9 Supporting equipment, notably crutches, are a device to assist a player's motion (mobility aid), especially one that provides support under the arm/forearm to reduce weight on a leg (transfers weight from the legs to the upper body) and provide stability.

In use can be: Axillary Crutches; Forearm Crutches, Gutter Crutches or other comparable crutches.

4.2.10 A prosthesis is an artificial device/artificial substitute designed to replace a missing part of the body. In para teqball the prosthesis can replace the entire leg (inclusive foot) = leg-prosthesis or the lower leg (inclusive foot) = lower-leg prosthesis.

## 6 THE RALLY

### 6.1 DEFINITION

6.1.1 The rally is the period during which the ball is in play.

6.1.2 Every rally begins with a service; the receiving player/team must then return the ball to the opponent's playing surface.

6.1.3 A valid rally ends with a point awarded to one of the players/teams.

### 6.2 SCORING SYSTEM

6.2.1 Each set is played until one side reaches 12 points.

6.2.2 The number of sets is specified in the regulations of each competition.

6.2.3 The final, decisive set must be won by at least a two-point margin; all other sets can be won by scoring 12 points first.

## 7 REPEATED RALLY

A rally must be repeated in three different cases:

### 7.1 EDGEBALL

7.1.1 In the case of an edgeball, no point is awarded and the rally must be repeated (see: Edgeball, 33).

### 7.2 THREE BOUNCES

7.2.1 If the ball bounces a minimum of three times on the opponent's playing surface the rally must be repeated; no point is awarded.

### 7.3 FORCE MAJEURE

7.3.1 Force majeure occurs when the referee stops the game during a valid rally.

7.3.2 The match can be stopped by the referee if the rally is disturbed by:

7.3.2.1 any person who is not an official player;

7.3.2.2 a ball other than the match one is played with; or

7.3.2.3 any event that may affect the outcome of the rally.

7.3.3 Where a force majeure occurs during service, only the interrupted service must be repeated. This means that if the force majeure occurs after a second service attempt, the serving players must repeat their second service attempt.

## 8 THE SCORE

8.1 A point is awarded to the player/team, if:

8.1.1 the opponent is unable to return the ball to the player's/ team's playing surface;

8.1.2 the opponent player returns the ball and it touches the side of the table (see: Sideball, 34);

8.1.3 the ball bounces a minimum of twice on the opponent's playing surface (except Three bounces, 32);

8.1.4 the opponent touches the ball consecutively more times than it is allowed with the same body part (see: Triple touch, 42);

8.1.5 the opponent touches the ball more than it is allowed (see: Too many touches, 35);

8.1.6 the opponent touches the ball with their hand or arm (see: Handball, 44);

8.1.7 the opponent commits a double fault (see: The service, 23);

8.1.8 the opponent touches the ball after a return before it lands on the table (see: The return, 28);

8.1.9 the opponent or any item on them touches the Teq table or the net (see: Table touch, 43);

8.1.10 the opponent touches the player during the rally (see: Touching the opponent, 43);

8.1.11 the opponent does not touch the ball in the correct order in doubles after the service, meaning that the non-receiving player touches the ball first (see: The order of play, 29);

8.1.12 the opponent player's point of touch or the body part in contact with the ground is not on their own side at the moment of returning the ball (see: Illegal attack, 34);

8.1.13 after the opponent's touch, the ball flies underneath the extended imaginary line of the top of the net, whether it lands on the playing surface or not (see: Illegal return, 35);

8.1.14 the player returns the ball to the opponent's playing surface and the ball spins back to the player's playing surface without being touched by the opponent player; or

8.1.15 after the opponent's touch, the ball touches any other equipment or person inside or outside the para teqball court, except for the player's playing surface or the net, except if the player/ team touches the ball before it would have bounced on the table.

8.1.16 in singles Sport Class 1, doubles Sport Class 1 and inclusive doubles Sport Class 1 the player touches the ball intentionally with the crutches.

8.1.17 in singles Sport Class 2 the opponent returns the ball consecutively with the same body part (see: Repeated return, 42);

8.1.18 If both players/teams commit a fault, then the player/ team who committed the fault first loses the rally.

8.1.19 See the scoring system in Scoring system, 19.

## 9 TOUCHES

9.1 Valid touches must meet the following points:

9.1.1 Players are allowed to touch the ball with any of their body parts except for the hands and arms.

9.1.2 A maximum of three touches are allowed during a return except in doubles Sport Class 1 and inclusive doubles Sport Class 1 (see: Too many touches, 35). Unintentional touches are also counted.

9.1.3 It is forbidden to hold the ball between two body parts (see: Too many touches, 35).

9.1.4 It is forbidden to hold the ball on body parts.

9.1.5 In singles Sport Class 2, doubles Sport Class 2 and inclusive doubles Sport Class 2 three consecutive touches with the same body part per person are forbidden (see: Triple touch, 42).

9.1.6 In singles Sport Class 2 consecutive returns with the same body part are forbidden (see: Repeated return, 42).

9.1.7 If the ball hits the net during gameplay, all the rules still apply regarding the touch except for the triple touch (see: Net bounce, 45).

9.1.8 Bicycle kicks, where the foot is above the level of the head, are only allowed if the trajectory of the ball is upwards or there is at least one body part or one crutch touching the ground (see: Illegal attack, 34).

9.1.9 In all cases, the Main Referee has the final decision on whether a touch is valid or not.

## 10 THE SERVICE

10.1 Singles Sport Class 1 , doubles Sport Class 1 and inclusive doubles Sport Class 1.

### 10.1.1 BASICS

#### 10.1.1.1 The service starts:

10.1.1.1.1 the player lifts up the ball from the ground using the crutches and serves the ball after a bounce on the ground.

10.1.1.1.2 the player lifts up the ball from the ground using his/her foot.

10.1.1.1.3 the players are allowed to request the assistance of the referee: the referee lets the ball fall from the height of the player's head, without any spin or extra lifting, then the player serves the ball after a bounce on the ground.

10.1.1.2 The service must be undertaken with one touch with any part of the body, except for the hands and arms.

10.1.1.3 A server has two attempts to execute a successful service.

10.1.1.4 Two failed service attempts in succession constitute a double fault.

10.1.1.5 The opponents change service after every 4 points.

10.1.1.6 If the ball is in the possession of the server, the opponent is ready to receive the service and the referee has made the signal for the service, the server has a maximum of 10 seconds to undertake the service.

#### 10.1.2 THE LOCATION OF THE SERVER

10.1.2.1 The service line is 2 m away from the table.

10.1.2.2 The service must be undertaken with at least one body part or one crutch touching the ground at the moment of contact with the ball.

10.1.2.3 The server must undertake the service by having all body parts and/or crutches that are touching the ground behind the service line.

10.1.2.4 The service is considered legal if none of the body parts of the player nor the crutches touch the service line at the moment of serving.

10.1.2.5 The body part(s) and/or crutches that are on the ground must be in between the extended imaginary lines of the sides of the table.

### 10.1.3 THE BALL

10.1.3.1 The trajectory of the ball after a service is unimportant (upwards or downwards), except in inclusive doubles Sport Class 1 when the teqball player that is not eligible for Sport Class 1 or Sport Class 2 serves to the Sport Class 1 player.

10.1.3.2 The ball must bounce first on the opponent's playing surface of the table.

10.1.3.3 The ball can bounce anywhere on the opponent's playing surface.

10.1.3.4 If the ball touches the net during service, this constitutes a service fault.

### 10.1.4 SITUATIONS:

10.1.4.1 If a service results in an edgeball, this results in a new service attempt, but two consecutive occasions like this constitute a service fault.

10.1.4.2 In doubles, only the receiving player can touch the ball first after a service. If the non-receiving player touches the ball first after a service, a point is awarded to the serving team.

10.1.4.3 Where a server is disturbed during a service, they are allowed to catch the ball or let it fall on the ground. This is allowed once per service attempt.

## 10.2 Singles Sport Class 2, doubles Sport Class 2 and inclusive doubles Sport Class 2

### 10.2.1 BASICS

10.2.1.1 The service starts with the ball being in the server's hand.

10.2.1.2 The server must toss the ball from their hand and serve it from the air.

10.2.1.3 The service must be undertaken with one touch with any part of the body, except for the hands and arms.

10.2.1.4 A server has two attempts to execute a successful service.

10.2.1.5 Two failed service attempts in succession constitute a double fault.

10.2.1.6 The opponents change service after every 4 points.

10.2.1.7 If the ball is in the possession of the server, the opponent is ready to receive the service and the referee has made the signal for the service, the server has a maximum of 10 seconds to undertake the service.

### 10.2.2 THE LOCATION OF THE SERVER

10.2.2.1 The service line is 2 m away from the table.

10.2.2.2 The service must be undertaken with at least one body part touching the ground at the moment of contact with the ball.

10.2.2.3 The server must undertake the service by having all body parts that are touching the ground behind the service line.

10.2.2.4 The service is considered legal if none of the body parts of the player touches the service line at the moment of serving.

10.2.2.5 The body part(s) that are on the ground must be in between the extended imaginary lines of the sides of the table.

### 10.2.3 THE BALL

10.2.3.1 The trajectory of the ball after a service is unimportant (upwards or downwards).

10.2.3.2 The point of touch with the ball must be above the lowest level of the playing surface.

10.2.3.3 The ball must bounce first on the opponent's playing surface of the table.

10.2.3.4 The ball can bounce anywhere on the opponent's playing surface.

10.2.3.5 If the ball touches the net during service, this constitutes a service fault.

### 10.2.4 SITUATIONS:

10.2.4.1 If a service results in an edgeball, this results in a new service attempt, but two consecutive occasions like this constitute a service fault.

10.2.4.2 In doubles, only the receiving player can touch the ball first after a service. If the non-receiving player touches the ball first after a service, a point is awarded to the serving team.

10.2.4.3 Where a server is disturbed during a service, they are allowed to catch the ball or let it fall on the ground. This is allowed once per service attempt.

11.1.4 the ball bounces on the opponent's playing surface after the valid touch(es) of the player/team, or the ball bounces on the net (any number of times) and then bounces on the opponent's playing surface, after the valid touch(es) of the player/team.

## 12 BOUNCE ON THE GROUND

12.1.3 It is not allowed to return the ball without touching the ball after it has bounced on the ground.

12.1.4 In inclusive doubles Sport Class 1 after the ball bounces on the ground only the player with crutches can touch the ball first.

12.1.5 If the ball bounces back from the net players with crutches are allowed to let the ball bounce on the ground according to points 12.1.1-12.1.4. (see: Net bounce, 45).

## 13 THE ORDER OF PLAY

### 13.1 SIDES AND ROLES

13.1.1 Before each match, the sides are selected by the players after a coin toss made by the Main Referee (see: Coin toss, 17). Players also select their roles regarding the serving and receiving players.

### 13.2 THE GAMEPLAY

13.2.1 A match starts by TeamA-Player1 serving to TeamB-Player1. The service is strictly made by TeamA-Player1 and only TeamB-Player1 is allowed to receive the ball.

After 4 points, a change of service is undertaken.

TeamA-Player1 and TeamA-Player2 must change positions, which means that TeamA-Player2 is the receiving player and

TeamB-Player1 is going to start serving.

After 4 points, a change of service is undertaken.

TeamB-Player1 and TeamB-Player2 must change positions, which means that TeamB-Player2 is the receiving player and

After 4 points, a change of service is undertaken.

TeamA-Player2 and TeamA-Player1 must change positions, which means that TeamA-Player1 is the receiving player and

TeamB-Player2 is going to start serving.

After 4 points, a change of service is undertaken.

TeamB-Player2 and TeamB-Player1 must change positions, which means that TeamB-Player1 is the receiving player and

TeamA-Player1 is going to start serving, which is exactly how the match started, so the whole scenario is repeated.

13.2.2 In the second set TeamB-Player1 is going to start serving to TeamA-Player1.

13.2.3 Before the final set the sides are selected by the players after a coin toss made by the Main Referee (see: Coin toss, 17). Players also select their roles regarding the serving and receiving players, just like before the first set.

13.2.4 In the final set, if the score gets to 12-12, the players/teams must change service after every point, with the same procedure.

13.2.5 In a best-of-three-set game, the first set is played to 12 points, which means that 12-11 can be a final score (see: Scoring system, 19).

13.2.6 After each set, the players/teams must switch sides. In the final set, when 6, 12 and 18 points are reached by the leading team, they must also switch sides.

28.1.3 If the ball bounces back from the net, the player/team can play the ball again within the number of touches allowed.

28.1.4 Net + the ball rolling on the opponent's playing surface (i.e. no bounces once the ball crosses the net) results in a repeated rally and no point is awarded.

## 29 BREAKS AND TIME OUTS

In para teqball, there are different stoppages and periods during a game.

### 29.1 WARM-UP

29.1.1 Warm-up time is 1 minute long, during which players are allowed to practise before the match commences.

## 29.2 BREAKS

29.2.1 There are breaks between all sets which are 2 minutes long. During this period, players are not allowed to play on the table.

29.2.2 During breaks, players are not allowed to leave the para teqball court without the permission of the Main Referee.

29.2.3 Players must switch sides during breaks.

## 29.3 TIME OUT

## 29.4 MEDICAL/TECHNICAL BREAK

29.4.1 If a player is injured during the match, the captain (or the player) may request an medical break from the Main Referee.

29.4.2 The Main Referee must evaluate and decide whether the medical break is required. If it is, the Main Referee shows a "T" sign and calls "Medical Break".

29.4.3 If there is a problem with the prosthesis or the crutches the captain (or the player) may request an technical break from the Main Referee.

29.4.4 The Main Referee must evaluate and decide whether the technical break is required. If it is, the Main Referee shows a "T" sign and calls "Technical Break".

29.4.5 The 3-minute medical/technical break must be measured by the Main Referee, using their watch or a separate stopwatch.

29.4.6 If the injury happens during a rally (e.g. the player accidentally heads the net or kicks the table hard), the Main Referee must immediately stop the game. This may lead to the replay of the rally (so no point is awarded) or a point being scored. The Main Referee is responsible for determining the situation and making a decision about it.

29.4.7 The 3-minute medical/technical break might be less but must not exceed 3 minutes in total.

29.4.8 Neither the Main Referee nor the Assistant Referee can touch the injured player(s), except in the case of an emergency where lifesaving first aid action is required. In all other cases, they should wait for medical support to arrive.

29.4.9 During the 3-minute medical/technical break, the players are not allowed to leave the para teqball court without the permission of the Main Referee, nor is any person allowed inside the para teqball court except for the competition's official medical team and the team official. In the case of a serious injury, the medical team of the players/teams may be allowed to examine the injured player inside the para teqball court.

29.4.10 Upon a medical team's recommendation or a player's/team's request, this 3-minute period can be extended to a 10-minute medical/technical break by the Main Referee. (See Medical/technical break - extension below). The Main Referee has the final decision about the extension of the medical/technical break.

29.4.11 Once the player is ready to continue the match, the game continues, as instructed by the Main Referee.

29.4.12 Players/teams can only request two 3-minute medical/technical breaks in one match. If a third medical/technical break is requested, the Main Referee must end the game. The opponent wins the match, but all previously earned points by the injured player remain valid.

## 29.5 MEDICAL/TECHNICAL BREAK - EXTENSION

29.5.1 The previously requested 3-minute medical/technical break may be extended by the Main Referee to a 10-minute medical/technical break. This is the maximum amount of time that can be applied in para teqball as a break.

29.5.2 The Main Referee calls the decision by raising one hand in the air and saying out loud, "10-minute medical/technical break!". The 10-minute medical/technical break may be shortened, but must not exceed 10 minutes.

29.5.3 The time is measured by the Main Referee on their watch or a separate stopwatch.

29.5.4 The 10-minute medical/technical break can only be given once per player/team per match. If the player/team is given a 10-minute break, they cannot request any further medical/technical breaks. If another medical/technical break is requested, the Main Referee must end the match. The opponent wins the match, but all previously earned points by the injured player remain valid.

29.5.5 During the 10-minute medical/technical break, the competition's official medical/technical team can enter the para teqball court, as can the medical/technical team of the injured player.

29.5.6 After the 10-minute medical/technical break player may warm-up on the table for a maximum of 1 minute.

## 30 INTERRUPTED COMPETITION

If a competition is interrupted due to unforeseen circumstances, e.g. a power outage, 1 hour is allowed for acceptable playing conditions to be restored. However, the Chief Referee may dissolve the waiting obligation if it becomes evident that a resumption within 1 hour is not possible. The results of matches, sets and rallies that have already been finished shall remain valid.

31.1.9 Advertisements can be placed on the floor, the table and the garments of the players.

## 32 DOPING CONTROL

Anti-doping is governed by the relevant and in force FITEQ Anti-Doping Rules.

## 33 APPEALS

### 33.1 CRITERIA FOR AN APPEAL

33.1.1 No agreement between players or team members can alter a decision made by the responsible referee on a question of interpretation of The Official Rules and Regulations of Para Teqball [herein the Rules and Regulations of Para Teqball].

## 34 DISCIPLINARY ACTIONS

### 34.1 INTEGRITY

34.1.1 Disciplinary actions may be taken during the period of a match or competition for violations of integrity and the relevant governing rules as defined in Section 34.

34.1.2 The behavior defined in Section 33.2 applies to situations occurring during the relevant match/tournament.

34.1.3 Serious violations of a FITEQ Integrity Policy occurring during the event period can result in disciplinary action nonetheless.

### 34.2 UNSPORTING CONDUCT

The behavior defined in Section 33.2 applies to situations occurring during the relevant match/tournament.

34.2.1 Unsporting conduct occurs when a player makes any inappropriate verbal remark or non-verbal gesture to the opponent players, team officials, referees, spectators or any other stakeholders who are part of the match/tournament.

34.2.2 If the Main Referee considers the player's conduct to be unsporting, they may sanction the player according to the following three steps:

34.2.2.1 Verbal warning – for unsporting behaviour, the Main Referee must issue a verbal warning to the offending player or team official, without awarding a point, unless the opposing player/team is clearly going to win the point. If the opposing player/team wins the point after unsporting conduct, the point must be awarded, and a verbal warning must be issued afterwards. The Main Referee may use their own words to explain the type of unsporting behaviour and then must warn the player that

for the next similar action, a point will be awarded to the opponent player/team.

34.2.2.2 Point awarded to the opponent player/team – in para teqball, referees do not use coloured cards. Where an unsporting behaviour takes place for a second time by the player/team or team official, the Main Referee must award a point to the opponent player/team and call out: “Second warning! Point to the opponent!” This step may be used several times if a player continues with unsporting behaviour.

34.2.2.3 Dismissal – in the case of an extreme offence or continuous unsporting behaviour, the Main Referee may dismiss a player by reporting them to the Competition Manager and/or the Chief Referee. The dismissal must be made by either the Competition Manager or the Chief Referee. After the dismissal, the opposing player/team wins the match, but all previously earned points by the dismissed player remain valid.

34.2.2.4 A warning or penalty incurred by any member of a team shall apply to the whole team.

### 34.3 UNSPORTING CONDUCT EXAMPLES

Serious violations of a FITEQ Integrity Policy occurring during the event period can result in disciplinary action nonetheless.

34.3.1 Player(s) intentionally cheating – evading the rules.

34.3.2 Inappropriate verbal and non-verbal communication.

34.3.3 Any communication with the opponent or the referee during a rally.

34.3.7 Refusing to change roles according to the order of play.

34.3.8 Acting in a manner that shows a lack of respect for the sport.

34.3.9 Verbally distracting the opponent in between rallies.

34.3.13 Dissenting by protesting the referees' decision, either verbally or non-verbally in an immoderate manner.

#### 34.4 CONSEQUENCES OF VIOLATIONS

34.4.1 The Main Referee must evaluate the specific situation and penalise accordingly. A point cannot be awarded against any team, without first issuing a verbal warning. The Assistant Referee may indicate any unsporting behaviour, after which the Main Referee shall issue a verbal warning to the player.

34.4.2 Before, during or straight after the match, any intentional physical contact with any players, team officials, referees, spectators or any other stakeholders who are part of the competition, leads to instant dismissal from the match or disqualification from the competition.

34.4.3 The consequence of dismissal is that the dismissed player's or team official's behaviour will be reported to the Competition Manager and/or Chief Referee of the

competition. The Competition Manager and the Chief Referee shall decide whether to disqualify the dismissed person from the competition.

34.4.4 If a player is disqualified from a competition for any reason, they shall automatically forfeit any associated title, medal, prize money or ranking points.

34.4.5 Cases of very serious misbehaviour shall be reported to the offender's association.

## 34.5 DISCIPLINARY ACTION

34.5.1 Disciplinary action shall be taken by FITEQ for offences reported by the Chief Referee in accordance with the FITEQ Disciplinary Policy. Athletes can report violations of a FITEQ Integrity Policy to the Chief Referee throughout the event period or for serious violations directly to FITEQ outside of the event period.

34.5.2 The right of appeal and further appeal may be lodged against a disciplinary action taken by FITEQ as per Section 13 and Section 14 of the FITEQ Disciplinary Policy.

## 34.6 COACHES' UNSPORTING BEHAVIOUR
