SECOND OPINION

Providing peace of mind on your fertility journey.

While you are seeking fertility treatment, it's normal to wonder if another doctor could offer more information or a different treatment option. You might want to find one who can look at your test results, talk with you about your personal situation, and maybe give you a different take on it. Getting a second opinion can help you feel more sure about your treatment plan. We are here for you so you can begin your treatment plan with confidence.

Your chart must be current—within one year of your new patient appointment—and you must be 48 years of age or younger. Records must contain pertinent information about your fertility workup and must be received one week prior to the date of the Free Second Opinion Consultation you schedule.

Let us investigate and work on your behalf. To get started, please provide us your insurance coverage, then **mention this offer when scheduling and provide form upon check in to your new patient consultation.**

_____ Patient Name	_____ DOB
_____ Patient Signature	_____ Date
_____ Partner Name	_____ DOB
_____ Partner Signature	_____ Date

*Applies to in-person or virtual CLINICAL CONSULTATION COMPONENT ONLY. Please note: if you have infertility insurance coverage, your insurance will be billed. However, any copay, co-insurance or deductible applied to that initial consultation only will be waived.
