

METIS CORPORATE TRAINING

LIVE ONLINE CAPABILITIES

A Legacy of Live Online Instruction

A few things set us apart when it comes to our history of offering exceptional online learning experiences:

Metis is a part of Kaplan, a pioneer in online learning.

- ▶ Kaplan Test Prep (KTP) launched Live Online course delivery over **10 years ago** in 2008.
- ▶ We have honed our methods with over **1 million** students learning online through Kaplan.

METIS[®]

Our Live Online instructional experience began in 2017.

- ▶ In the past 3 years, we have graduated **45+ cohorts** from Live Online part-time courses.
- ▶ In **January 2020**, we successfully launched our Live Online bootcamp.

DEMYSTIFYING DATA SCIENCE[™]

We produce the world's largest live online data science conference.

- ▶ We have had over **9,000 total attendees**, representing more than 80% of the world's countries.
- ▶ Over **2,000 concurrent viewers** supported concurrently.

WE HAVE PARTNERED WITH EDUCATIONAL INSTITUTIONS.

Through a partnership with Dublin Business School, Metis delivered the college's **first internationally delivered** live online course.

Why Live Online?

We provide live training both in-person or online, depending on our client's needs and where their employees are located. Through Live Online instruction, our clients enjoy a number of benefits.

ACCESSIBLE TO DISTRIBUTED TEAMS

No matter where your staff is located around the globe, they can come together to learn with our instructors.

REDUCE COSTS

Save lost employee travel hours and reduce expenses related to transportation, lodging, and meals.

GAIN FLEXIBILITY

Live Online courses are delivered in shorter spaced out chunks, reducing the disruption that can be caused by full days away from work.

IMPROVE OUTCOMES

Through real-time interaction with expert instructors, students learn skills they can retain and apply to their jobs immediately.

LIVE ONLINE LEARNING EXPERIENCE

Tech Setup

Our Live Online classroom setup takes just a couple of minutes and is completely free. Additional technical specifications are the same as in-person courses and are provided on a course-by-course basis.

Classroom Environment

Live Online provides an engaging classroom experience:

- ▶ Breakout rooms allow students to collaborate on solving challenges or working through projects.
- ▶ Students appear on video in the classroom and can interact directly with their instructor and fellow colleagues.
- ▶ Your instructor teaches the class live with the support of a teaching assistant, who is there to answer questions via chat.

Instructor-Student Interaction

Interaction between instructors and students happens throughout the course via direct conversation via video and chat, interactive white boarding, and polling.
