

How to Print the Wow & Wonder Summer Scrapbook

Choose your print style: booklet or plain spreads.

Booklet

Pages 2-15 in this PDF may look all jumbled out of place but that's so you can print it like a book! Simply set your printer to print pages 2-15 double-sided, flipped on the short edge. Now fold the stack of papers in half and secure them with a stapler or string. (Try not to get the pages out of order or you'll have quite a job putting the puzzle back together!)

Plain Spreads

If your printer cannot print double-sided or you'd rather just have each activity printed as a full spread, print pages 16-29.
