Actions to Support Black Lives During Protests and COVID-19

Across the country we have seen an uprising against police brutality and a system that does not serve justice. Black lives are unprotected and undervalued. During this time, you can donate money to support [protesters who have been arrested](https://www.protesterswhohavebeenarrested.com). Furthermore, you can contribute to mutual aid funds. Mutual aid funds will help people in need of resources, especially during this pandemic. Black families and neighborhoods have been disproportionately affected by the novel coronavirus.

Here is a list of mutual aid funds you can contribute to:
