

# CAREER SUPPORT AT METIS

Our goal is to prepare you for success as a data scientist — and our measure of that success is your employment upon graduating from the Data Science Bootcamp. We are committed to providing you with the support and tools you need in order to get there, and that commitment does not end until you've landed the job.

## 1 INDIVIDUALIZED SUPPORT & ONE-ON-ONE MEETINGS

Throughout the bootcamp, as well as during post-graduation support, you have opportunities to meet with your Career Advisor. The purpose and outcome of each meeting will be different for every student, but some of the most frequent topics we discuss and/or review are resumes, LinkedIn profiles, salary negotiation, mock interviews, company introductions, crafting messages to hiring managers and recruiters, and soft skill interviewing.

## 2 SPEAKER & EVENTS

During the bootcamp, you are exposed to a number of speakers, including ones from our Hiring Network. These speakers provide deep-dives into specific skills and/or career coaching advice and represent excellent opportunities to expand your knowledge, gain insider career information, meet potential hiring managers, and expand your data science network.

## 3 WORKSHOPS

### LINKEDIN

We teach you how to build a LinkedIn profile that is specifically suited for data science jobs. Learn how to incorporate your previous work experience and how to best position yourself for competitive opportunities.

### NETWORKING

We throw a mock networking event (attended only by members of your cohort) to help you learn how to navigate - and build confidence to attend - industry events and Meetups.

### DATA SCIENCE CAREER PATHS

You get your burning questions answered around differences in job titles, how skills vary by industry, the impact of an advance degree, and more.

### INTERVIEW PREPARATION

You learn the dos & don'ts of the interview process, including important tips to help you achieve successful interviews.

### RESUMES

You learn how to craft a professional resume that is ready to present to employers at Career Day.

### SALARY NEGOTIATION

We share the latest data scientist salary information and walk you through salary negotiation best practices.

## 4 MOCK INTERVIEWS

Throughout the bootcamp you will participate in mock interviewing. This includes a live one-on-one non-technical mock interview with your Career Advisor as well as a technical mock interview with a Data Scientist. Our goal is to help prepare you for the real-world interviews you'll have with recruiters, data science teams, and business people.

## 5 CAREER DAY PREPARATION

Leading up to Career Day, you have multiple opportunities to demo your final project in front of Metis staff, students, and instructors, and you'll receive personalized feedback to help you better prepare for Career Day.

## 6 CAREER DAY

During your final week, we host Career Day, at which you're introduced to companies actively hiring for data scientists. You present your final project and network with attendees throughout the event. Participating companies have included Capital One, IBM, Facebook, Tesla, Grubhub and many more.

## 7 POST-GRADUATION SUPPORT

After you graduate — and until you are employed — you can expect to receive:

- ✓ *An invitation to join MADE - the Metis Alumni Dashboard for Employment - that allows Metis graduates to connect with job opportunities.*
- ✓ *An invitation to join the Metis Alumni Network, which puts you in touch with all Metis alumni.*
- ✓ *Access to the Alumni Resources folder.*
- ✓ *Links to job openings, events, and job searching articles and resources. (These are shared via the messaging service Slack.)*
- ✓ *Information on specific job opportunities that we think will be a fit for you based on geographic or industry preference, or because of the employer's preference for certain skills or work experience.*
- ✓ *An optional one-on-one meeting with your Career Advisor.*

## YOUR COMMITMENT:

---

*1. Participate in one-on-one meetings*

---

*2. Attend speaker and event activities*

---

*3. Attend workshops*

---

*4. Respond to Careers Team in a timely manner (within 48 hours)*

---

*5. Adhere to deadlines for completing career-related tasks*

---

METIS®

*We are excited to work with each of you!*
