

COASTLINE

MARVIN SIGNATURE® COLLECTION

Marvin Signature® Collection

DESIGNED FOR THE BEST COASTAL VIEWS, ENGINEERED FOR THE WORST COASTAL WEATHER

Built for the most exacting architects, builders, and homeowners, Marvin Coastline windows and doors combine a beautiful aesthetic, design flexibility, and a rigorous impact performance to help fulfill even the most ambitious visions for coastal homes. Coastline windows and doors feature narrow sightlines and a clean aesthetic that will complement a wide range of architectural styles, and you can personalize your design with a custom color, a beautiful wood grain finish, or by creating a unique pattern of divided lites. Coastline windows and doors are available in expansive sizes allowing you to leverage stunning coastal views. The reinforced impact glass and extruded all aluminum frames meet the most stringent hurricane impact code requirements.

Designed and manufactured in Florida, Coastline products are available in select southeast coastal regions.

About Us

At Marvin, we're driven to imagine and create better ways of living, helping people feel happier and healthier inside their homes. We believe that our work isn't just about designing better windows and doors—it's about opening new possibilities for the people who use them.

STYLE AND PERFORMANCE

Marvin Coastline windows are designed to bring a sense of quality to every room, yet are engineered to meet the challenges of the unpredictable and severe weather patterns that threaten homes on the coast. Offering an expansive range of shapes, sizes, styles, and design options, Coastline windows promise a new possibility for your home.

CASEMENT

DIRECT GLAZE (PICTURE)

SPECIALTY SHAPES

CASEMENT

- Perfect for hard-to-reach areas like over a sink or counter
- Narrow sidelines perfectly suited for homes with a contemporary aesthetic
- Combine with round top or transom windows
- Fixed, or non-operational casements available
- Can be configured as an operable left or right handed window
- 4" sash limiter available
- Stainless steel hardware upgrade available
- Optional wash hinge for access to both sides of the glass from indoors

Glass options include:

- 5/16" laminated PVB and SGP
- 7/16" laminated PVB and SGP
- 1 1/16" insulated laminated PVB and SGP
- White interlayer

CASEMENT				
PRODUCT	MAX AREA* (SQ. FT)	MAX WIDTH/ HEIGHT (IN.)	MAX DESIGN PRESSURE† (PSF)	OPERATION
CASEMENT	20.5	42 OR 84	+80/ -80	LH/RH
CASEMENT PICTURE	47	106 3/4 OR 106 3/8	+80/ -80	FIXED

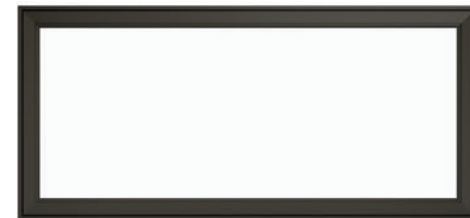

AWNING

- Can be left partially open during wet weather for continuous access to fresh air
- Install awning windows higher up on a wall to create more usable wall space or conceal less desirable views while still enjoying the benefits of natural light
- Often used in conjunction with Direct Glaze (Picture) Narrow Frame
- Hinges from the top and projects out from the bottom
- Bottom operation up to 16" maximum open position
- 4" sash limiter available
- Stainless steel hardware upgrade available

Glass options include:

- 5/16" laminated PVB and SGP
- 7/16" laminated PVB and SGP
- 1 1/16" insulated laminated PVB and SGP
- White interlayer

AWNING				
PRODUCT	MAX AREA* (SQ. FT)	MAX WIDTH/ HEIGHT (IN.)	MAX DESIGN PRESSURE† (PSF)	OPERATION
AWNING	20.5	84 OR 84	+80/ -80	OPERABLE

SINGLE HUNG

- Designed to provide a traditional aesthetic
- Features a fixed top sash and a well-balanced bottom sash that lifts to open
- Dual-point locking system

Glass options include:

- 5/16" laminated PVB and SGP
- 7/16" laminated PVB and SGP
- 1 1/16" insulated laminated PVB
- White interlayer

REVERSE COTTAGE OPTIONS

SINGLE HUNG				
PRODUCT	MAX AREA* (SQ. FT)	MAX WIDTH/ HEIGHT (IN.)	MAX DESIGN PRESSURE† (PSF)	OPERATION
SINGLE HUNG	29.5	53 1/2 OR 80	+80/ -120	VERTICAL SLIDING

GLIDER

- Also known as horizontal roller
- Available in XO, OX, and XOX
- Larger custom configurations can be created
- Excellent choice for wide horizontal openings
- Operating sashes are equipped with brass tandem rollers making them easy to open and close
- Choose clear glass for a contemporary style or add a simulated divided lite for a more traditional aesthetic

Glass options include:

- 5/16" laminated PVB
- 7/16" laminated PVB and SGP
- 1 1/16" insulated laminated PVB
- White interlayer

GLIDER				
PRODUCT	MAX AREA* (SQ. FT)	MAX WIDTH/ HEIGHT (IN.)	MAX DESIGN PRESSURE† (PSF)	OPERATION

DIRECT GLAZE (PICTURE)

- Custom sizing available for design flexibility
- A non-operable window with the glass direct glazed into the frame, eliminating the need for a sash
- Can be combined with round top or transom windows
- Direct Glaze (Picture) Narrow Frame window option features a more streamlined frame that will complement any contemporary aesthetic

Glass options include:

- 5/16" laminated PVB (Direct Glaze NF)
- 7/16" laminated PVB (Direct Glaze, Direct Glaze NF)
- 7/16" laminated SGP (Direct Glaze NF)
- 9/16" laminated PVB (Direct Glaze)
- 9/16" laminated SGP (Direct Glaze, Direct Glaze NF)
- 1 1/8" insulated laminated PVB and SGP (Direct Glaze NF)
- 1 1/4" insulated laminated PVB and SGP (Direct Glaze)
- White interlayer

WINDOW HARDWARE

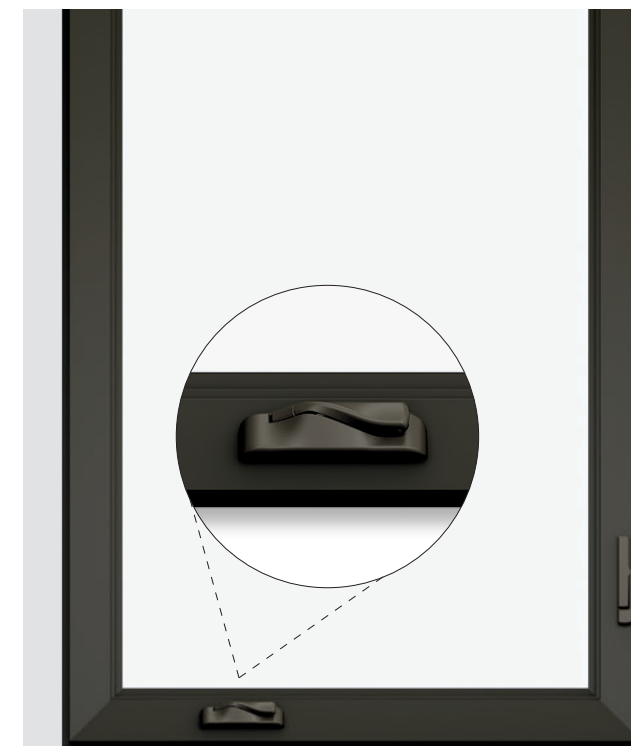

COASTLINE DIRECT GLAZE (PICTURE) WINDOW

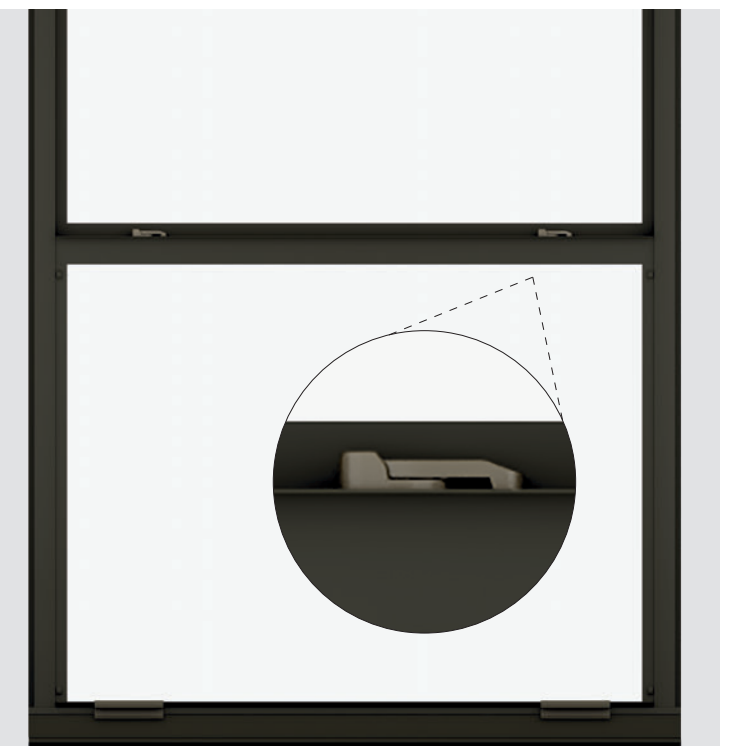

WINDOW HARDWARE

Features locking and latching mechanisms that are engineered to protect your home against harsh coastal weather. Hardware finishes withstand corrosion caused by humid conditions and salty air, and resist fading even after many years of direct exposure to the intense UV rays generated by the sun. Window hardware available in Black, Bronze, and White.

COASTLINE DOOR PORTFOLIO

COASTLINE ENTRY DOOR

STYLE AND PERFORMANCE

Experience everything life near the coast has to offer with an expansive Bi-Fold or Multi-Slide door featuring tandem rollers for smooth operation. Add a statement piece such as an oversized Pivot door that seems to hover in mid air or customize a French door to complement both a modern or traditional aesthetic. If your home or business is threatened by a severe storm or hurricane, you can rest easy knowing that even your largest Coastline door will provide unsurpassed protection.

PIVOT

SWINGING FRENCH

ENTRY

COASTLINE SWINGING FRENCH DOOR

BI-FOLD

- Outswing panels fold open and closed like an accordion
- Available in 2, 3, 4, 5 and 6-panel configurations
- Traffic door available in most configurations
- Multi-point locking system on primary panel, dual point lock on others
- Available in outswing configuration
- Bi-parting and unidirectional configurations available
- 2 3/8" Standard sill and ADA sill available

Glass options include:

- 7/16" laminated PVB
- 1" insulated laminated PVB
- White interlayer

BI-FOLD				
PRODUCT	MAX AREA* (SQ. FT)	MAX WIDTH/ HEIGHT (IN.)	MAX DESIGN PRESSURE† (PSF)	OPERATION
BI-FOLD	197.5	40** OR 116 13/16	+70/ -70	2-6 PANELS

MULTI-SLIDE

- Bi-parting and unidirectional configurations available
- Panels can be configured to disappear into a wall pocket
- Dual-point lock on all configurations except Corner door which features a multi-point lock
- Two, three, four, and five track options
- Optional heavy duty charcoal mesh bypass or captured screen with aluminum frame
- Optional sill heights available depending on water penetration performance required
- 2 1/4", 2 3/4", or 4" sill risers available depending on door configuration and performance needs

Glass options include:

- 3/16" laminated SGP
- White interlayer

MULTI-SLIDE				
PRODUCT	MAX AREA* (SQ. FT)	MAX WIDTH/ HEIGHT (IN.)	MAX DESIGN PRESSURE† (PSF)	OPERATION
MULTI-SLIDE 4.562	258	375 OR 100 1/4	+90/ -110	2-8 PANELS, STACKED/BYPASS

WINDOW AND DOOR DESIGN OPTIONS

COASTLINE OUTSWING FRENCH DOOR

INTERIOR AND EXTERIOR FINISHES*

Coastline windows and doors are available in ten low-maintenance interior and exterior finishes that resist fading, peeling, and chalking even under the most extreme coastal conditions. Our palette includes four woodgrain finishes that deliver a natural warmth and beauty. Custom color options are also available.

DIVIDED LITES***

Divided lites provide the look of multiple, individual panes of glass and are popular in a wide range of architectural styles. Coastline products are available in a variety of divided lite types depending on the product.

Simulated Divided Lites (SDLs) are permanently adhered to both sides of the glass. Combinations for windows include 1" Square/Flat, 1" Ogee/Flat or 1" and 2" Flat/Flat. SDL bars to the interior are flat. Combinations for doors include 1" through 6" Square/Square, 1" Ogee/Ogee, and 1" and 2" Flat/Flat; the SDL bars to the interior match the exterior.

Authentic Divided Lites (ADLs) are separated pieces of glass glazed between muntin bars.

Grilles Between the Glass (GBGs) are permanently installed between the insulated glass panes for low-maintenance, smooth exterior, and easy cleaning.

* Interior/Exterior finish samples are approximate. Visit your local Marvin Coastline dealer to see finish samples or to learn more about creating a custom color.

** American Architectural Manufacturers Association (AAMA) 2605 certification

*** Not all divided lite profiles and configurations are compatible with all products. Check with your Marvin Coastline dealer for a recommendation on which profile is right for your project.

For more information visit marvin.com

DESIGN OPTIONS

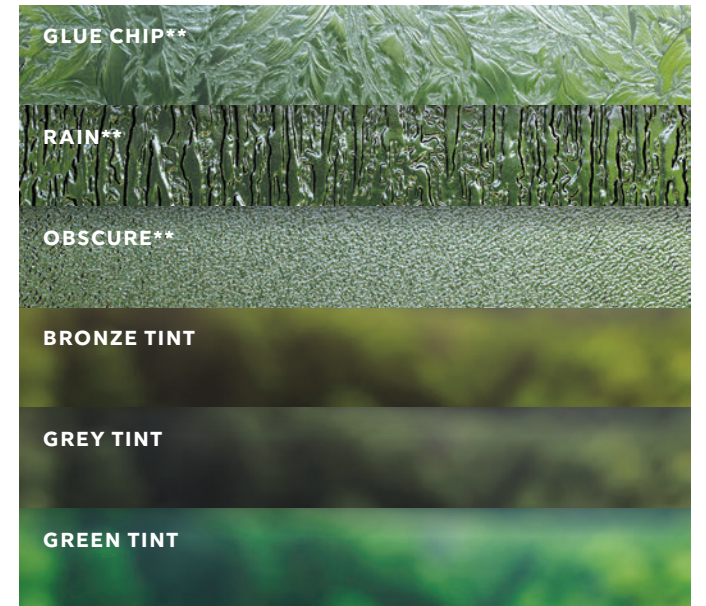

COASTLINE MULTI-SLIDE DOOR

GLASS OPTIONS*

Coastline products are built with impact resistant glass that is engineered to stand up to the punishing winds and flying debris generated by tropical storms and hurricanes. There are a wide variety of decorative patterns and tints to meet the unique needs of each project. We offer several low-e coatings and laminated white interlayer that will increase privacy, reduce solar heat gain, and meet the requirements of the Sea Turtle Conservation Codes. Coastline products can be fitted with insulated glass to help conserve energy. We can also provide specialty impact resistant glass solutions for specific project needs like sound management.

DECORATIVE GLASS***

SCREENS

Available on Casement, Awning, Glider, and Single Hung windows, and the Multi-Slide door, Coastline screens feature aluminum frames specifically engineered to stand up to coastal weather. Capture cool ocean breezes and take advantage of fresh air while preventing insects, pests, and floating debris like leaves and seeds from entering your home.

*Azurelite Tint also available. Not all decorative and specialty glass is compatible with all products. Visit your local Marvin Coastline dealer for a recommendation on which glass is right for your project.

** Not available on Multi-Slide door.

*** Double Tint and Neat decorative glass also available.

IN HARSH COASTAL CONDITIONS,
YOUR WINDOWS AND DOORS MATTER

Marvin offers windows and doors specifically designed for the coast.

Since 1912, Marvin has been a family-owned and -led company, with a legacy of innovation and commitment to the highest quality. We understand the unique opportunity windows and doors have to improve our spaces and how we feel in them. That's why we never stop pushing what's possible and inventing new solutions to channel fresh air, enhance light quality, and connect with the world around us.
