First Things First

Activate your INCOME POSITION

Kickstart your journey with Partner.Co—**absolutely free**! As a Brand Partner, you can immediately begin exploring, buying, and sharing amazing products. And the excitement doesn't stop there—once you achieve a Sales Turnover(Personal order+customer order) of 100 PV(Point volume) or more, you unlock the opportunity to earn additional commissions and bonuses as outlined in our rewarding Compensation Plan. Your path to growth and success begins right here!

Next, Achieve a Business Level

Join Partner.Co as a Brand Partner at **no cost** and unlock the opportunity to achieve any of the four Business Levels based on your sales performance!

Every Partner.Co product has a Point Value. These are used to calculate commissions.

Your Business Level is determined by the volume you accumulate in your first four calendar weeks (weeks ending on Fridays).

Brand Partners accumulate sales volume by selling Partner.Co products to customers or by self order

Once you reach a new business level, it's permanently yours—your highest achievement is always secured as you keep growing!

Base Commissions

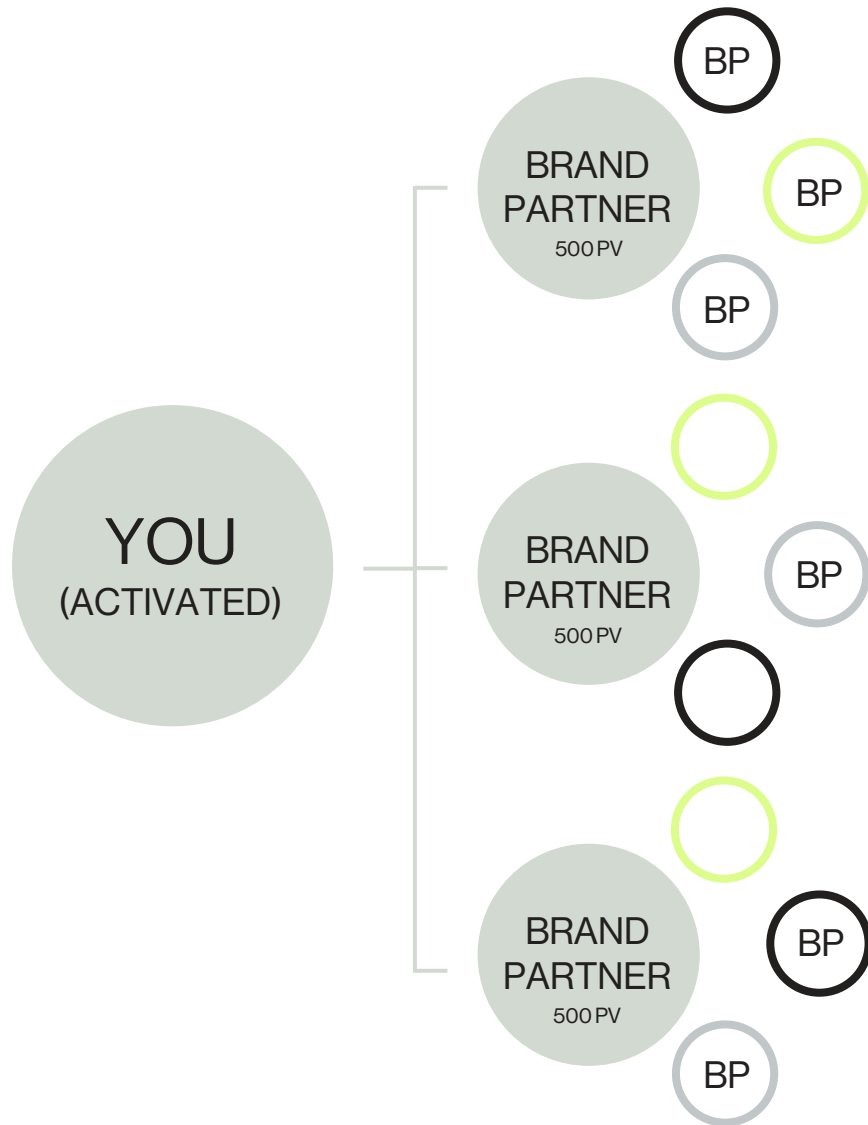

Earn by building sales teams

Base Commissions

YOUR INCOME POSITION in the Partner.Co sales network enables you to get paid, week after week.

Residual Income

As you build YOUR TEAM of Brand Partners, they will be placed into a line with an open position.

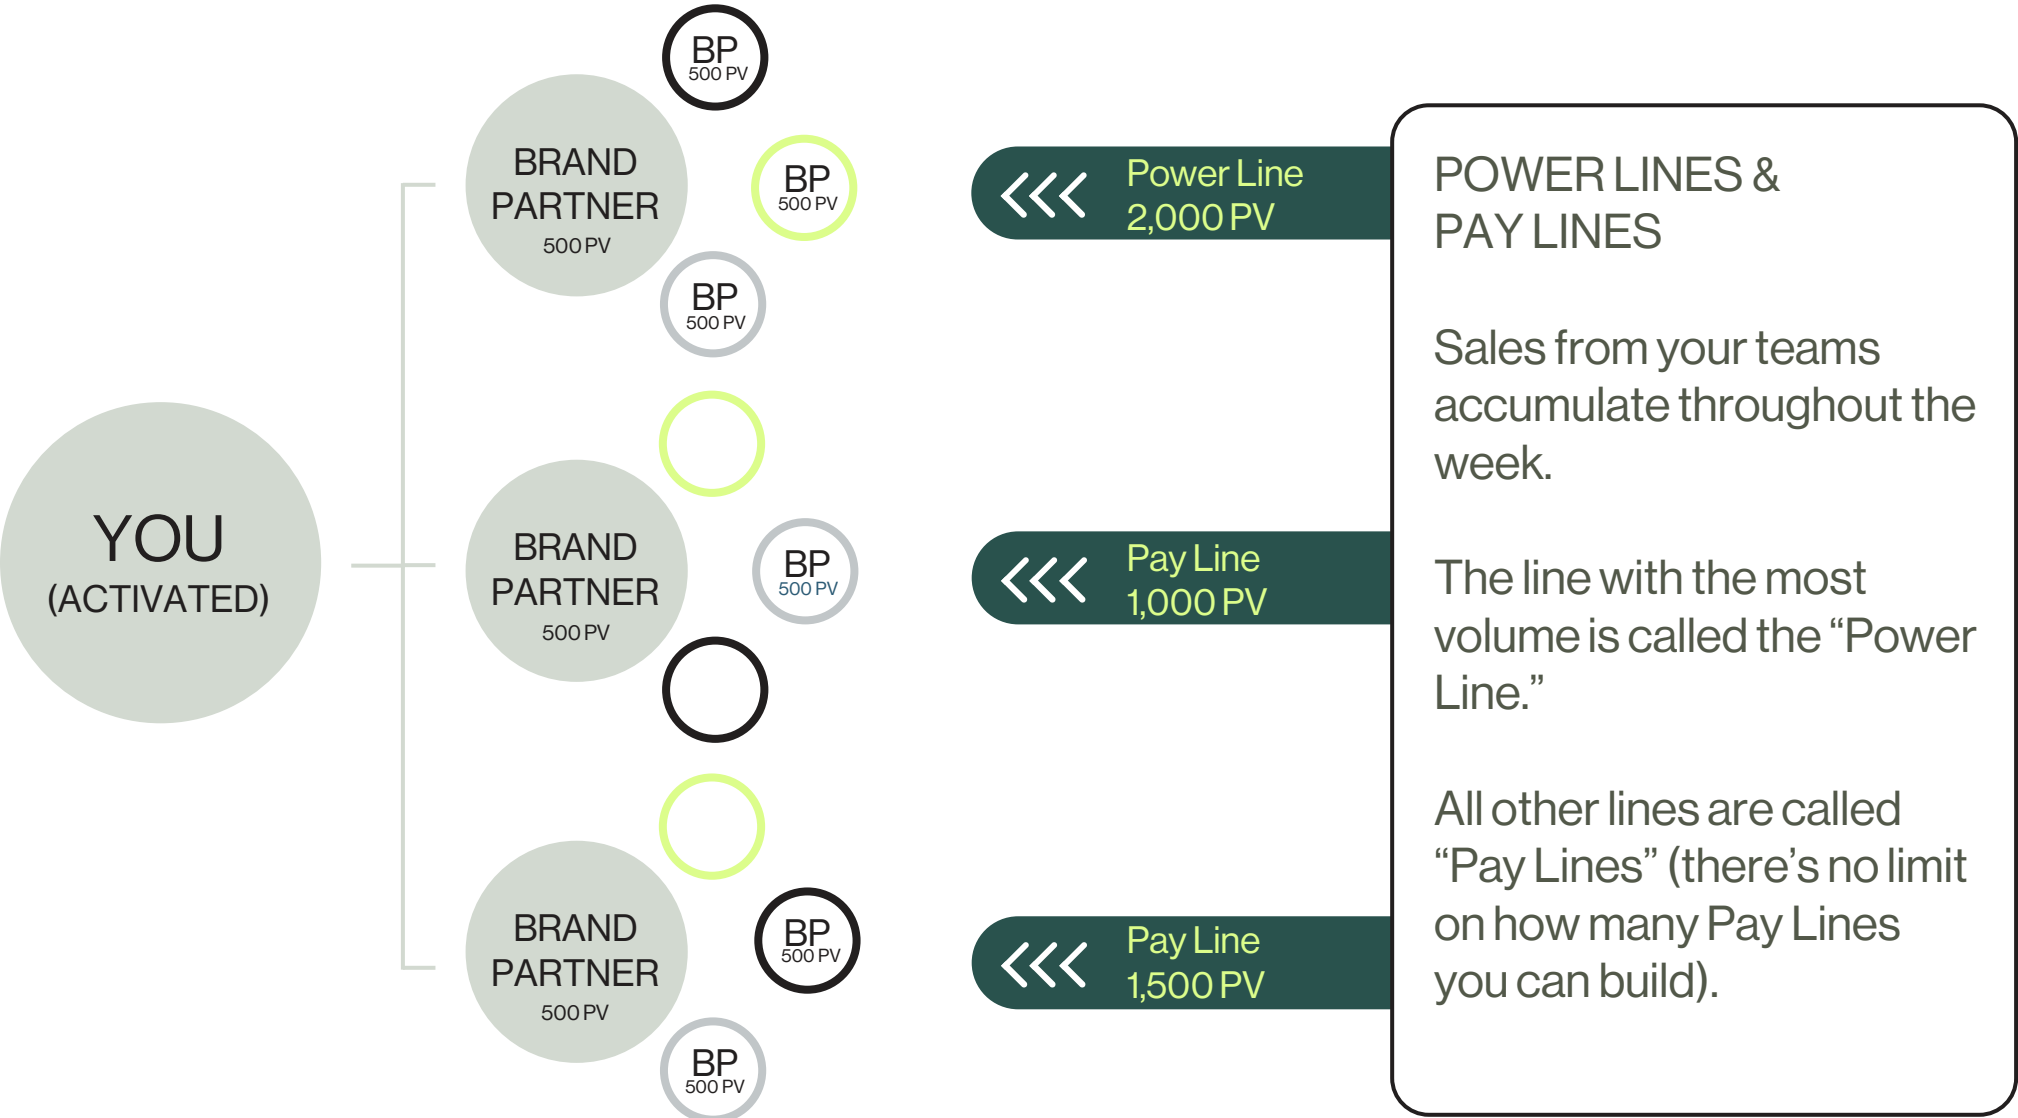

You can add new Brand Partners to existing teams (build deep) or place them in new lines as they become available (build wide).

Each Brand Partner can also acquire new customers, increasing your sales team volume.

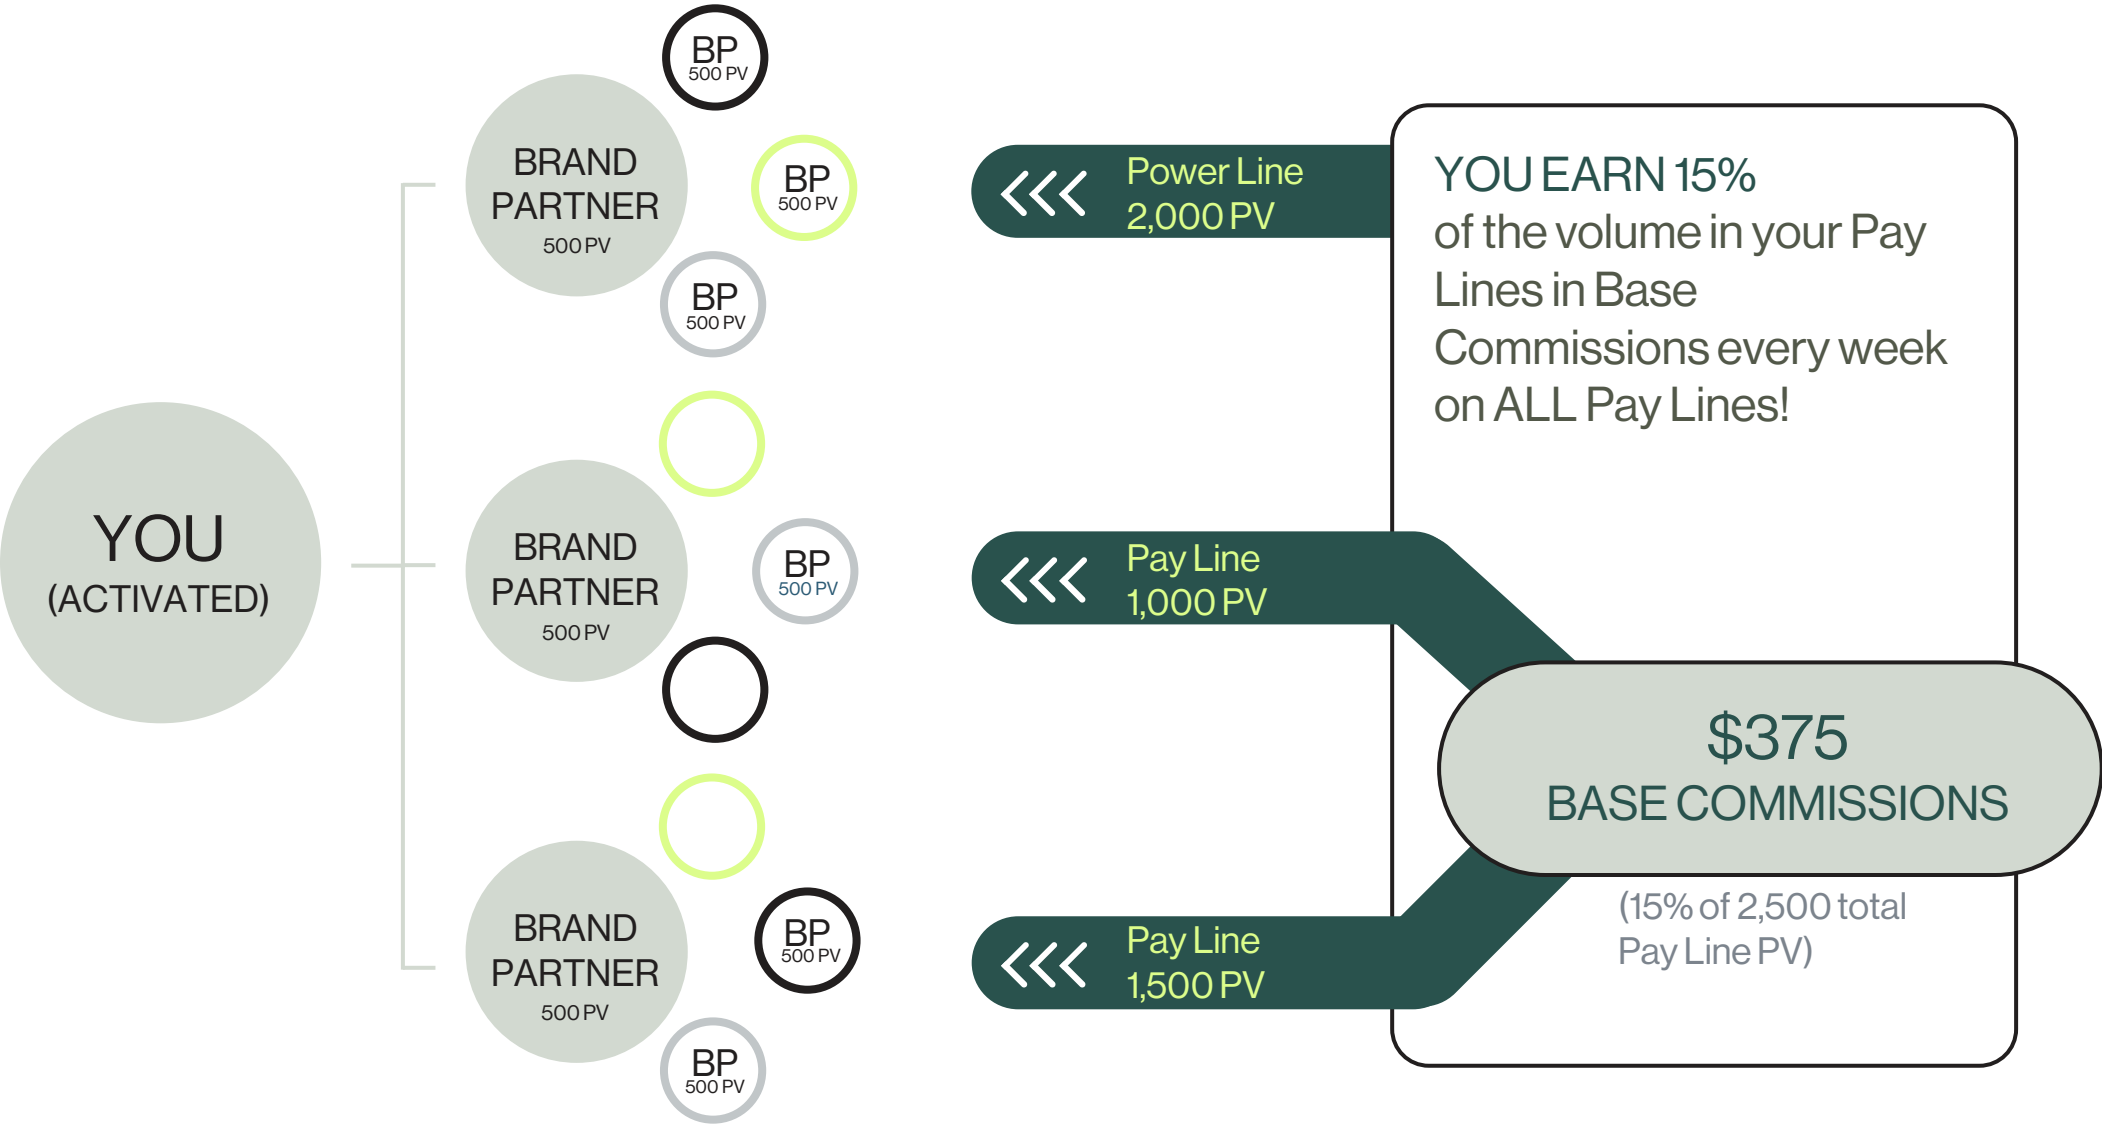

Building infinitely “deep” and “wide” is exclusive.

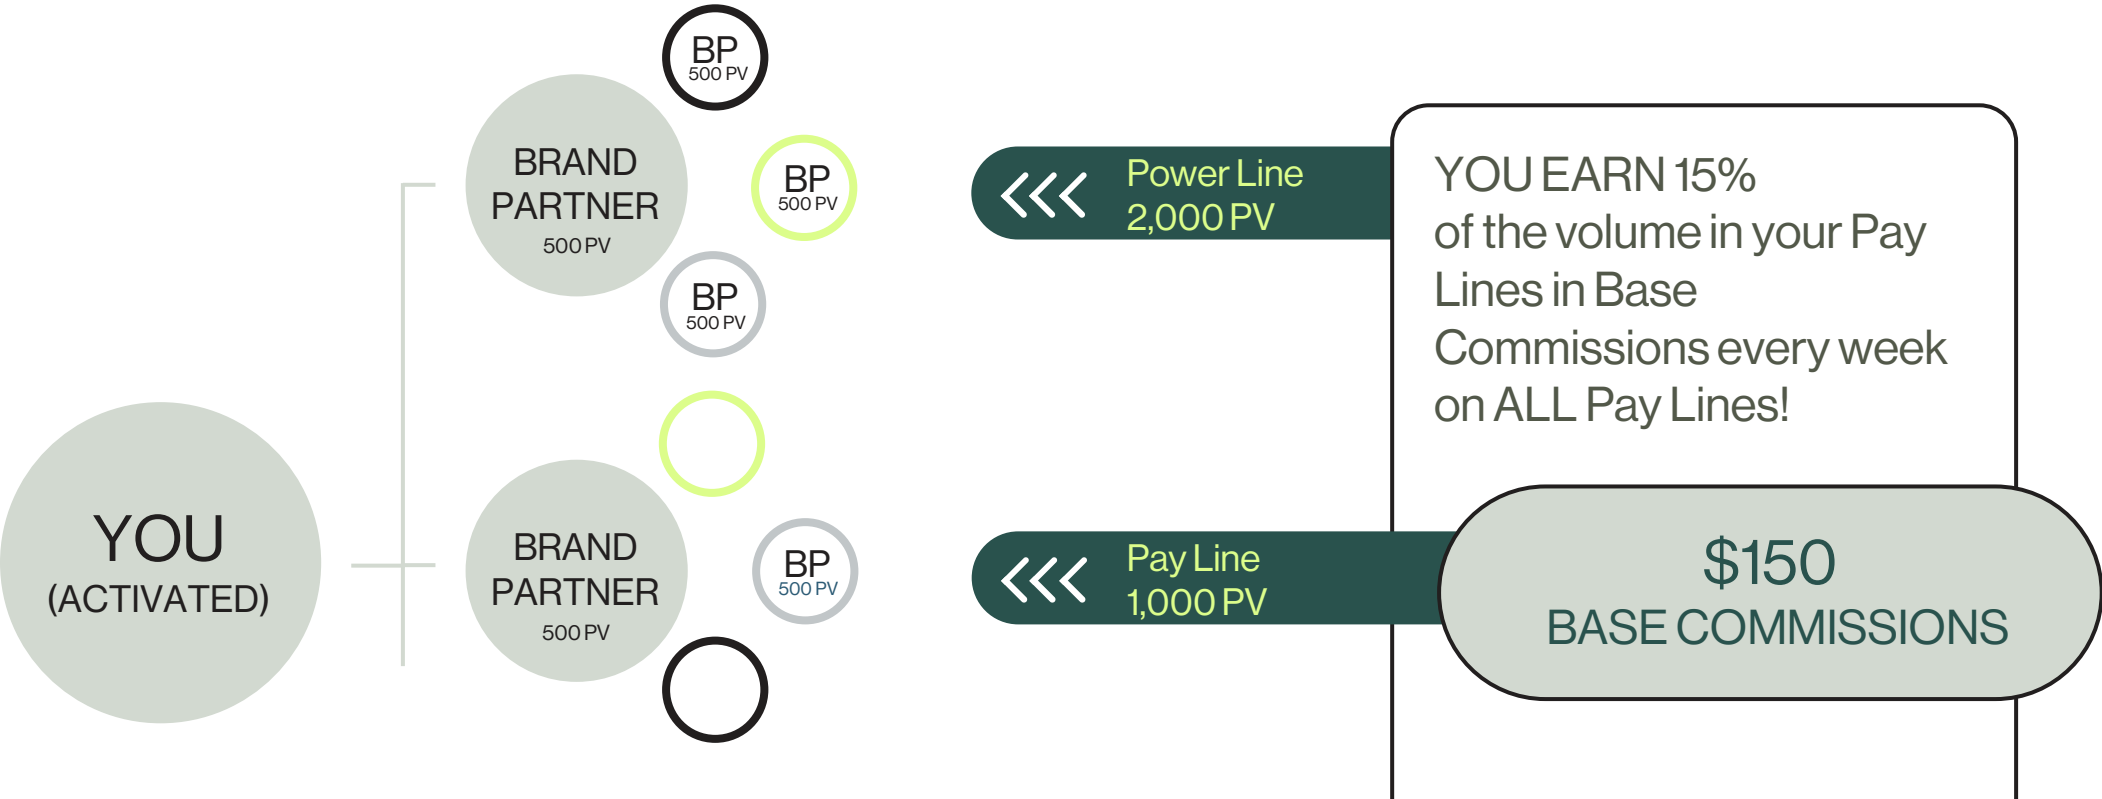

Residual Income

Residual Income

Residual Income

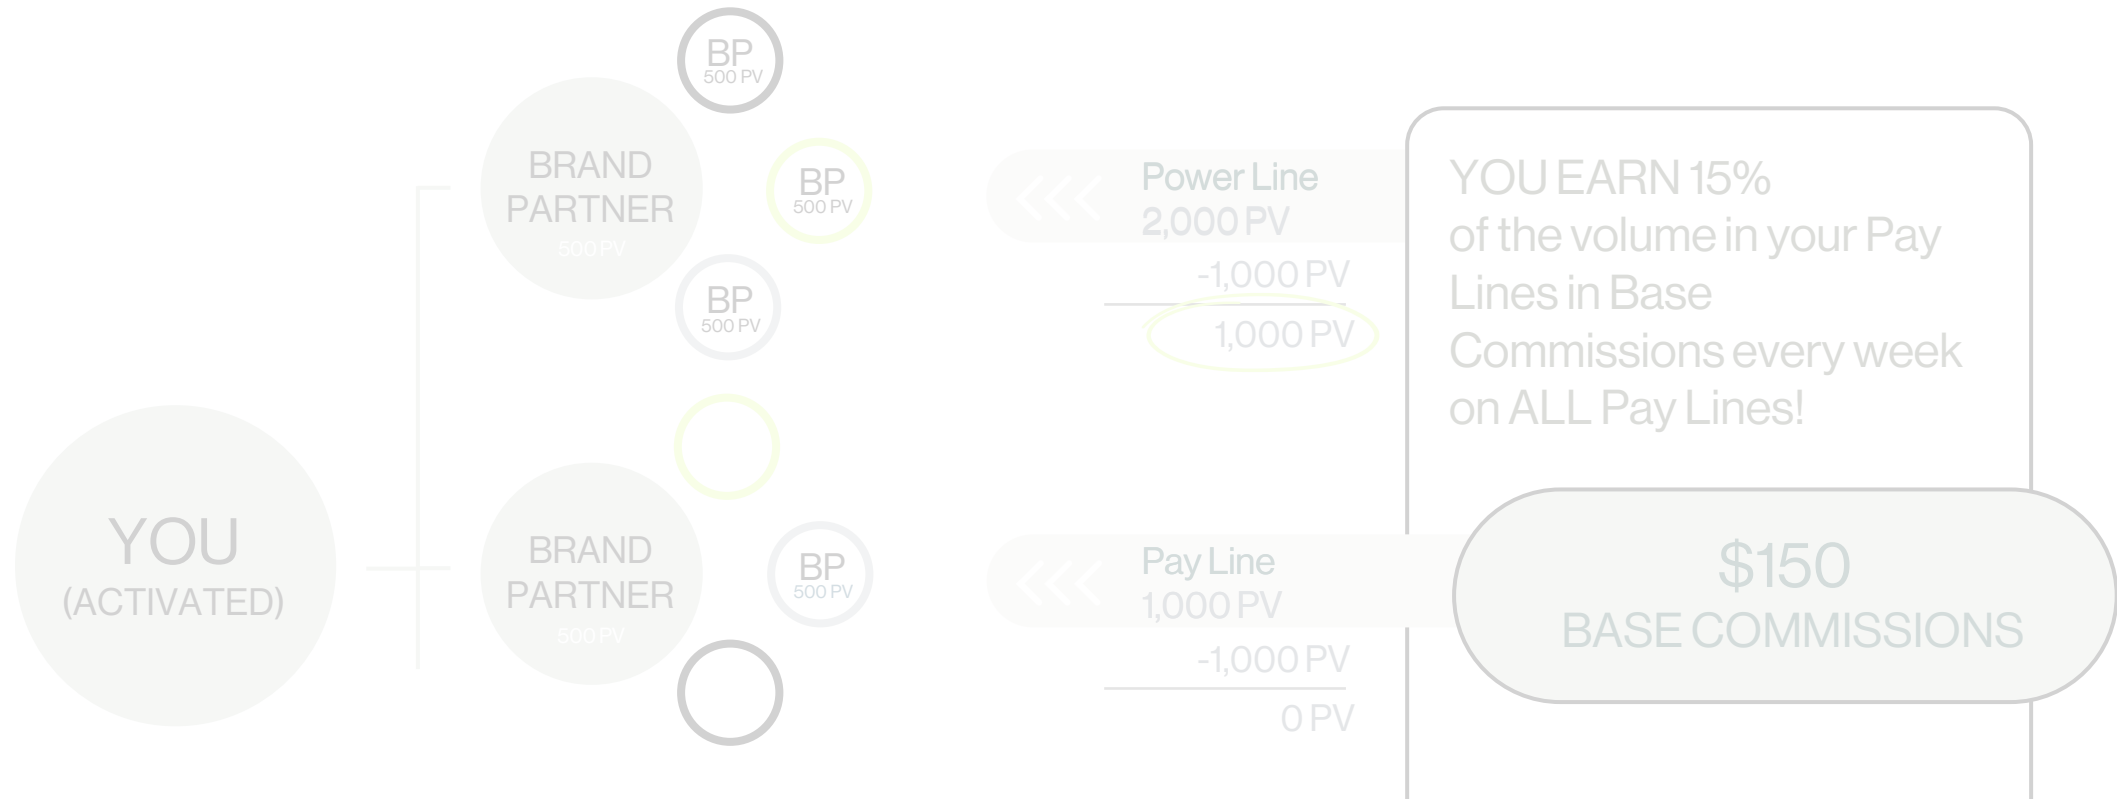

CARRYOVER VOLUME

As Base Commissions are paid out, that volume is removed from both Pay Lines and Power Lines.

Residual Income

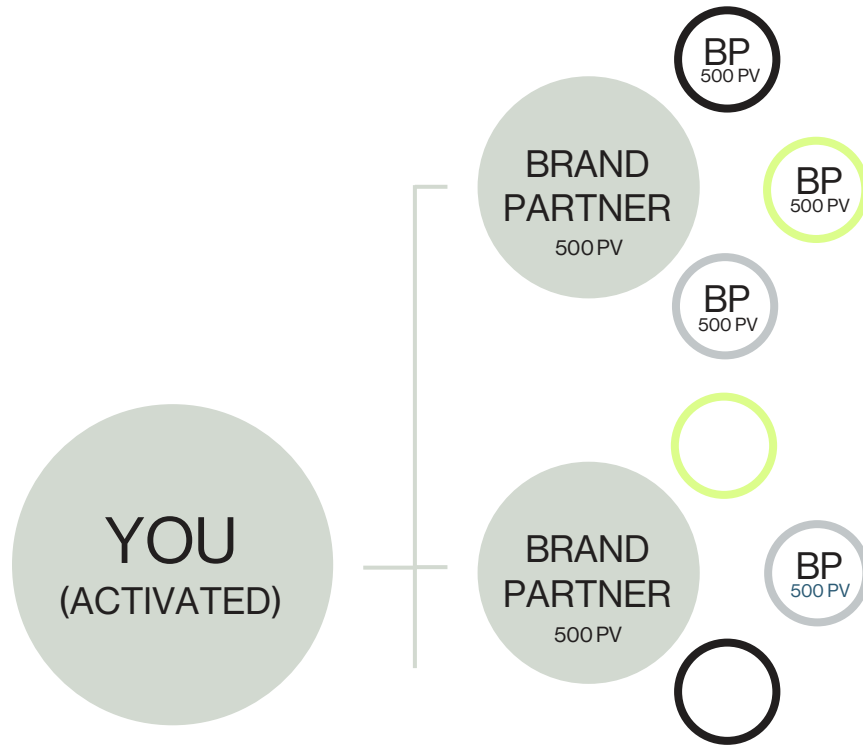

CARRYOVER VOLUME

Any volume left over in the Power Line will carry over to the next week. Carryover Volume adds to new volume to calculate your Base Commissions.

Residual Income

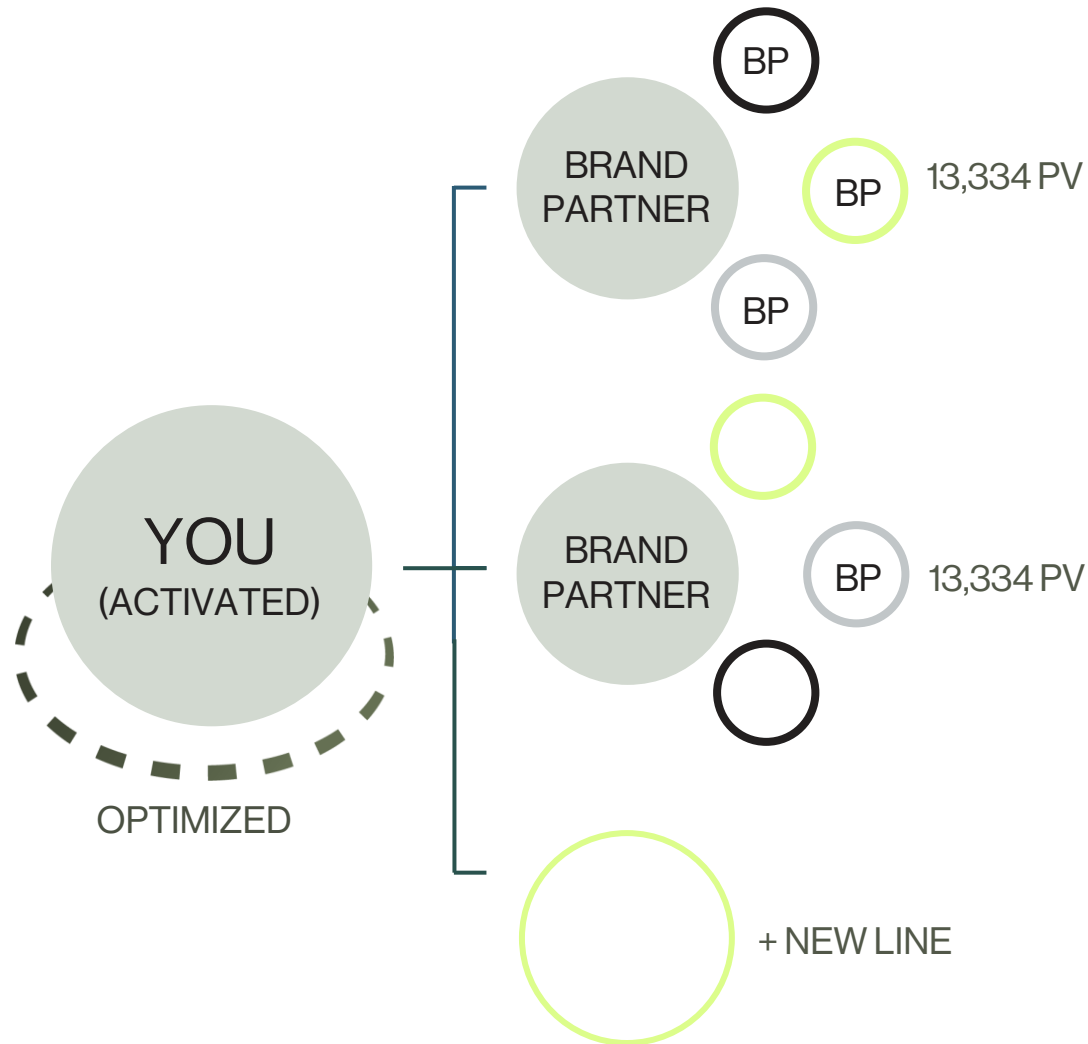

Power Line

<<< Pay Line

Each Pay Line can pay up to \$2,000 USD (13,334 PV) each week.

Residual Income

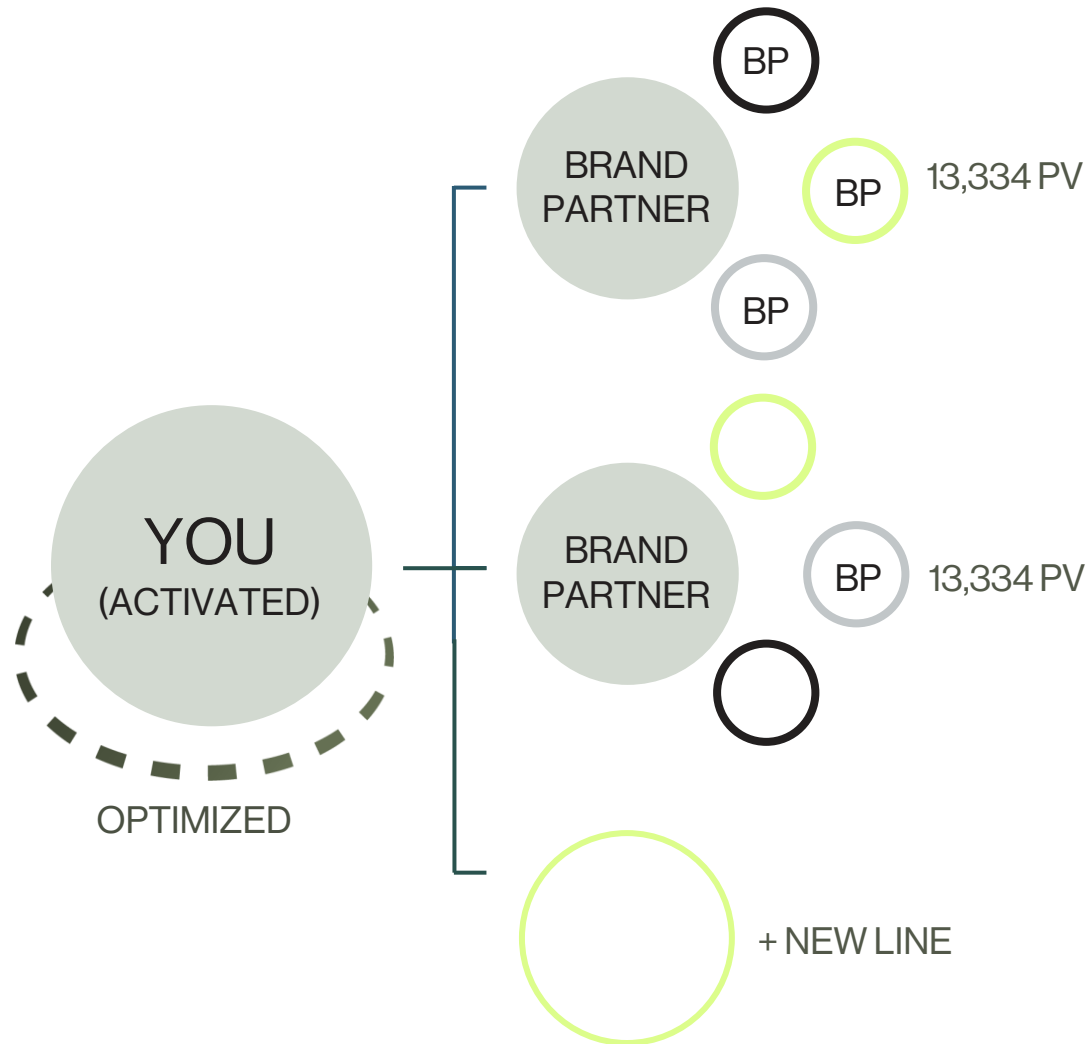

Optimization

When sales volume reaches 13,334 PV (\$2,000) on two or more lines in one week, your Income Position **OPTIMIZES**.

This produces a NEW Line and a New Income Position (Re-Entry).

Residual Income

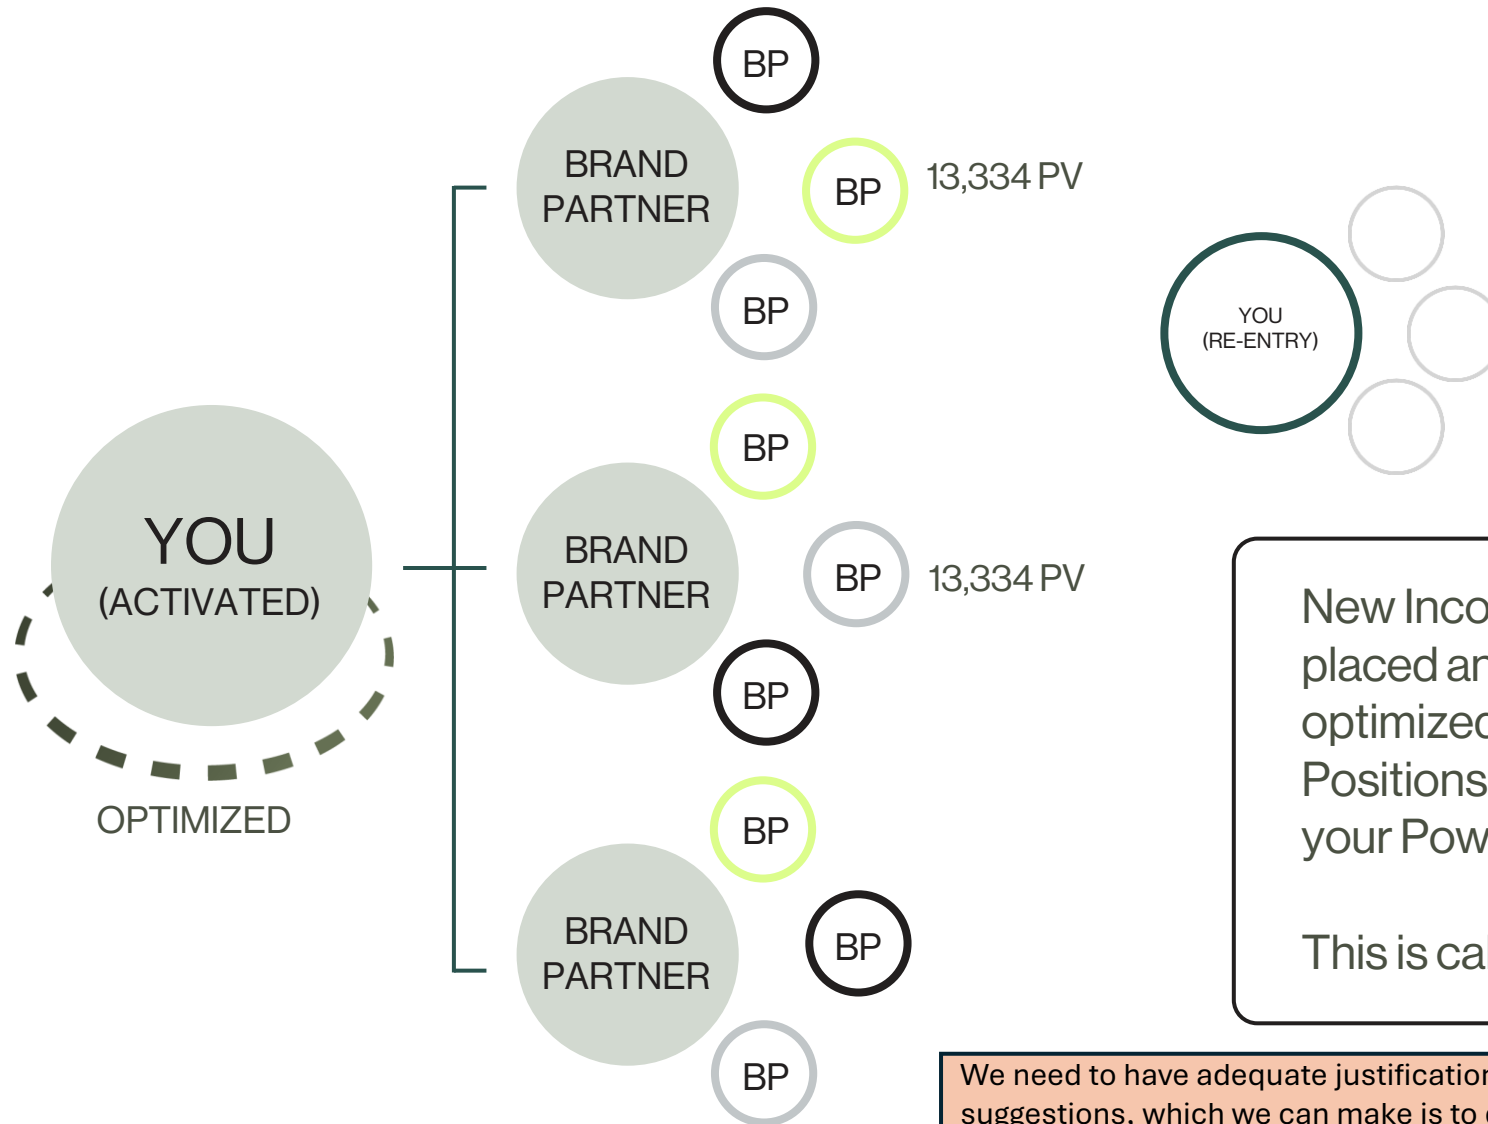

You can start building the new line instantly!

There's **no limit** to the number of lines you can build!

This is called building **wide**.

Residual Income

New Income Positions can be placed anywhere under the optimized Pay Line. New Income Positions cannot be placed under your Power Line.

This is called **Re-Entry**.

We need to have adequate justification and logic for providing this facility and one of the suggestions, which we can make is to describe this feature as being equivalent to a person being able to open multiple business centres/shops in different localities once the sale potential of a particular locality reaches exhaustion/optimization level drawing an analogy to traditional business.

Residual Income

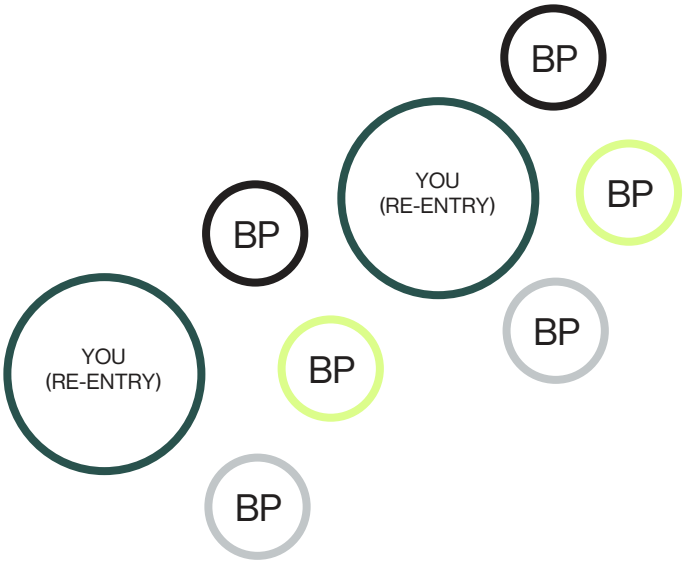

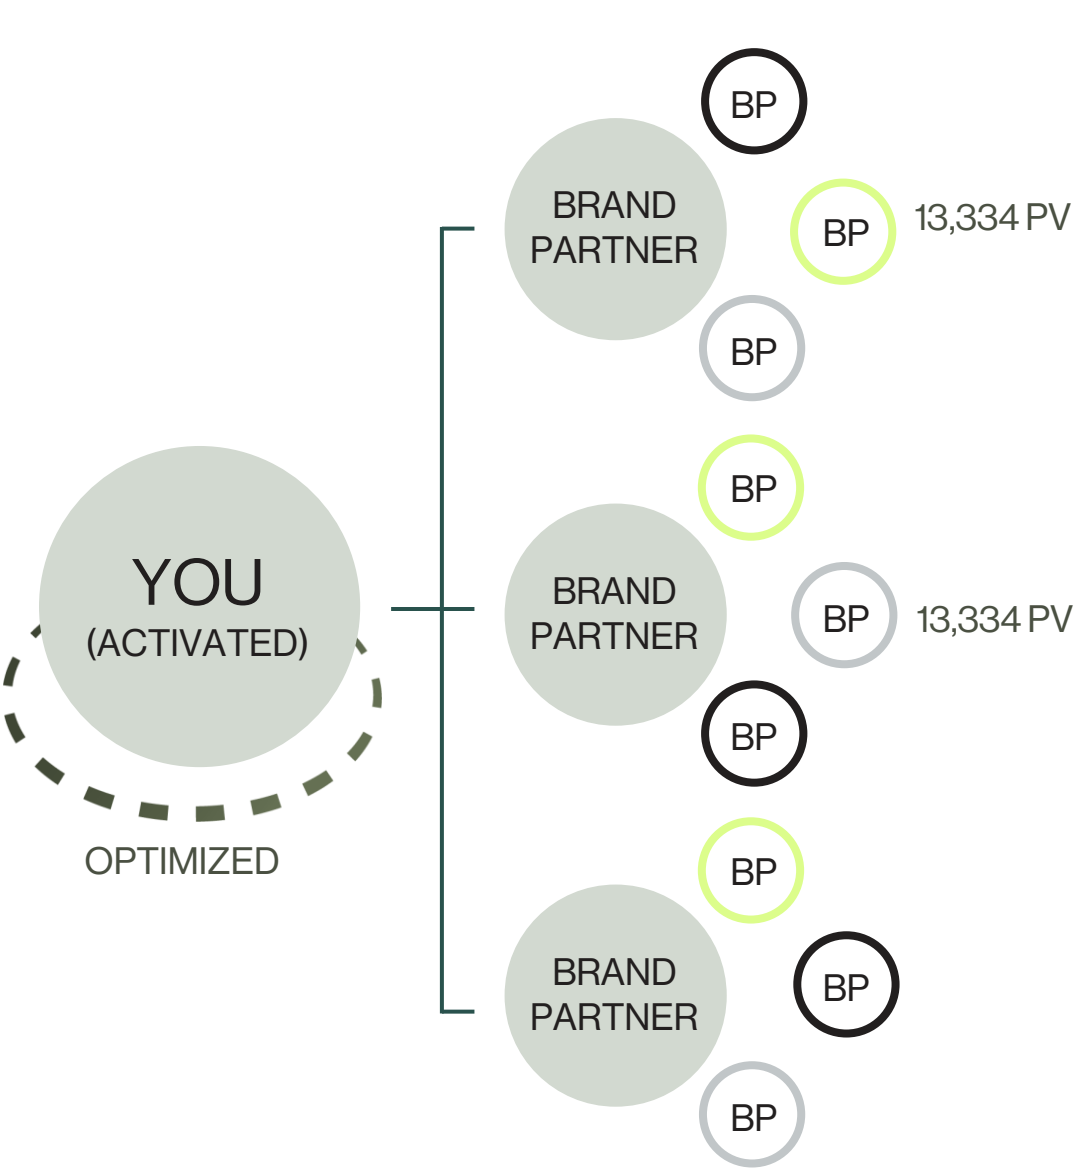

Power Re-Entry

Achieve Ultimate Business Level to unlock Power Re-Entry. This special Re-Entry allows you to place the new Income Position at the bottom of any line in your organization or in a cross-organization.

Use it to collaborate with other teams and share in the growth with leaders who aren't part of your organization.

Residual Income

Re-Entering is used to strategically build with existing team members, creating new income positions and building new teams together.

This is called building deep.
