

FITEQ NEWSLETTER

MAY 2022

Edition 33

27 May 2022

It was a month of milestones across the global teqball family, with progress against all of FITEQ's strategic priorities being achieved. Teqball was added to the All-Africa Games 2023 in what marks a major step in teqball's journey in the continent. Continuing on the competition front, Nikola Mitro and Bogdan Marojevic reinforced why they are the most feared doubles team on the planet after another dominant display at the USA Teqball Tour event in Los Angeles. Meanwhile, the City of Angels was home to another success story for teqball, with the sport confirmed as a part of the LA28 Organising Committee's Youth Sport Partnership (YSP) Agreement with the City of Los Angeles Board of Recreation and Park Commissioners. Finally, para teqball made further strides, with United Through Sports World Virtual Youth Festival winner Stefan Dogaru establishing himself as a role model for the future generation.
