

# Microservices platform

build and operate thousands of microservices on a solid foundation

**200**

specialized engineers

**4**

Fortune 500 clients

**Global**

presence in the US,  
Europe and Asia

**100%**

open source and cloud-native

## Bridge the gap between application and infrastructure

Google Cloud Platform

kubernetes

Istio

Terraform

Spinnaker

## We automate your journey to microservices

### ARCHITECT

Establish interface  
between applications  
and infrastructure

### DEPLOY

Deploy microservices  
platform from open  
source accelerator

### SUPPORT

Support platform in all  
environments and train  
your teams

## Grid Dynamics delivers

### MINUTES

of lead time from  
code to production

### HUNDREDS

of deployments  
per day

### 99.99%+

uptime and  
high reliability

### ZERO

license cost and  
low TCO

### COMPLIANCE

with internal and  
external controls

### CLOUD

native or agnostic  
deployments
