31 March 2021

PARA TEQBALL HAS ARRIVED!

FITEQ has officially launched its very own parasport. The publication of the sport's rules and regulations, as well as the classification regulations, will pave the way for elite para-sport athletes to excel in international competitions and for grassroots players all around to be inspired to try the world's fastest growing sport.

Inclusivity has always been at the top of the agenda for the FITEQ Executive Board and with the launch of para teqball there is now a structured framework for the sport to develop sustainably all around the world.

Following the launch, FITEQ President Gábor Borsányi said, "When I think about what sport means to me, I think of passion, ambition, equality, diversity and inclusivity. Sport at its core should be for everyone, regardless of age, ability or background."

For teqball to stay true to this and live up to our ambition to be a sport for all, we must provide opportunities for all aspiring teqers to enjoy the world's fastest growing sport. In launching the official rules of para teqball, we are paving the way for hidden stars to emerge in elite level competitions. We believe this will inspire a new generation of teqers to reach their full potential, whatever level that might be. Together, we will dream big and show the world that teqball is for everyone."

There will be two para teqball classes: Sport Class 1 (PTBSC 1), which is for athletes permanently requiring the use of crutches, and Sport Class 2 (PTBSC 2), which is for athletes with a prosthesis. In the future, FITEQ intends to expand on this, so that as many people as possible can compete in elite events. This is a very exciting and proud milestone for the sport and FITEQ urges all National Federations and clubs to embrace the teqball vision of being a sport for all.
