

How to use your coffee pod caddy.

www.podback.org

Using your caddy to recycle.

1

After preparing a drink, remove pod from machine with pod tray and leave to cool and drain.

2

Once you have allowed some time for drainage, move used pods to your caddy to store between collections.

3

Pods will drain further in the caddy. Empty any remaining liquid.

4

You will have received a supply of Podback bags for recycling your used pods.

5

Before collection, transfer drained pods from the caddy to the kerbside recycling bag.

6

Please do not fill the bag above the dotted line. Tie the kerbside recycling bag securely.

7

Clean out your caddy to be ready to use again.
