APPOINTMENT/SOLD INDEX PAST 4 WEEKS

This number assesses the relationship between properties that sold this week and the number of appointments made during the same week, thereby measuring buyer motivation.

MONTHLY COMPARISON 2023 vs 2024

The first week of October started off with an increase of nearly 5% over the final week of September. With appointments for the same period as last year up nearly 10 percentage points. Friday continues to be the dominant day for showings representing 17% of the appointment volumes for the week.

Our sales to new listings ratio is sitting at 83% which is well above our all of our trading areas, proving our agents are outperforming their competition. The appointment/sold property index rose to nearly 11, illustrating new entrants into the fall market as insured mortgages increased from \$1,000,000 to \$1,500,000.
