Buy: Create the perfect investment portfolio and leave a legacy

We've brought together the best technology, tools, professional services and systems to help you do that with confidence and ease.

Planning: We have the most extensive data sets available to any investor, including market dynamics that help you decide where you want to invest based on-demand drivers like population trends, migration patterns, and employment statistics.

Execution: After spending time online doing research, you can engage a member of our team of real estate investment agents known as Rent Estate Advisors and share your plan. Our trained and equipped advisors are a great sounding board to help dial in your objectives, and then start viewing properties that fit.

Sell: Maximize your ROI—sell your property with tenants in place.

The traditional way of selling a home requires showings, open houses, and for sale signs - all of which are disruptive to your tenant. Most real estate agents consider your tenant to be “in the way” of marketing your home. The only option seems to be waiting for the lease to expire, and then putting your house on the market.

- Your home is marketed to the broadest possible market of both investors and home buyers.
- We will syndicate your property to all of the top real estate websites, including Zillow and Realtor.com.
- No other website offers extensive investor analytics available on RentersWarehouse.com, making our website the best place for investors to shop.
- If a tenant occupies your property, we have the unique ability to coordinate with them and get your home on the market sooner.

Find the best tenants, for the best price...pronto.

Smart pricing means minimal time on the market — and more dollars in your pocket. With our free home Rental Price Analysis Tool, you'll find it easy to hit that rental pricing sweet spot where the property goes fast, and you make the most money possible.

The bottom line, we'll rent your property fast. Within 24 hours of our agreement, we put our exclusive RentFeeder™ technology to work, marketing your property on hundreds of websites (\$400+ monthly value) and connecting you with countless potential renters.

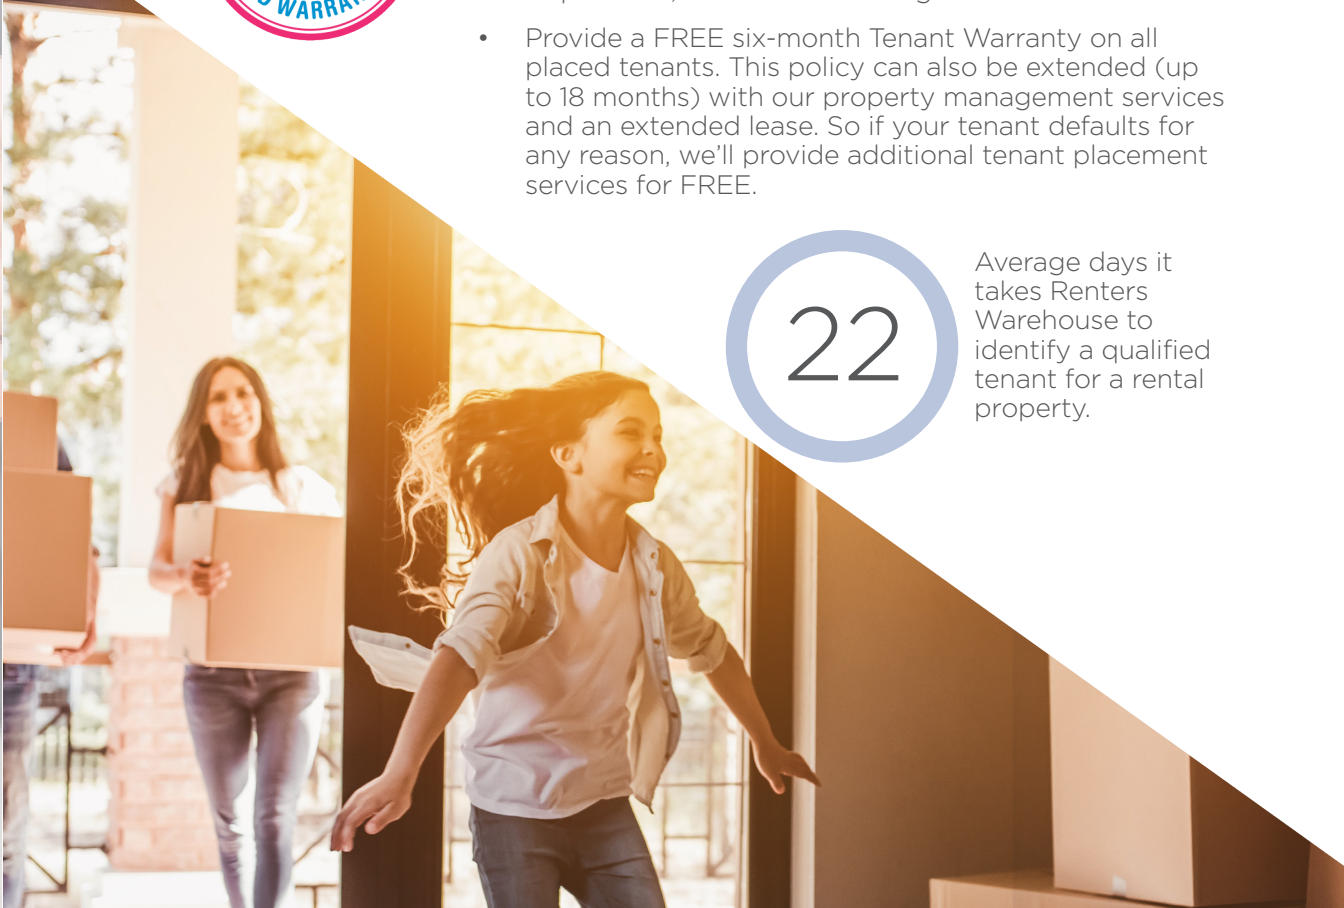

As part of our Certified Tenant Match & Warranty process, we:

- Accompany all prospective tenants through your property.
- Complete a thorough background and credit check on each potential tenant.
- Prepare and assist you with all lease documents, inspections, and rental licensing.
- Provide a FREE six-month Tenant Warranty on all placed tenants. This policy can also be extended (up to 18 months) with our property management services and an extended lease. So if your tenant defaults for any reason, we'll provide additional tenant placement services for FREE.
