

TRAINING THAT **ACCELERATES** YOUR PROJECT MANAGEMENT CAREER

Amidst the rapid pace of modern business, the criticality of both IT and business projects holds unparalleled significance. Ensure your project skills and competencies are ready for this challenge and boost your performance and career.

Your Partner in Project Leadership

As a globally recognized leader in developing project management skills for 50 years, we understand the challenges you face. That setbacks not only impact budgets, but can also rattle team morale and impede progress. Success requires the right skills and certifications, that's why our instructors are industry experts, ensuring you receive the most up-to-date knowledge and practical insights.

Confident Navigation of Project Management

Our comprehensive training programs have been meticulously crafted to empower you to navigate the intricate landscape of Project Management with certainty. This is why esteemed organizations choose us – we empower project professionals across the globe to excel in today's complex and rapidly evolving business environment. From foundational project management principles to advanced methodologies, our diverse range of courses cater to all skill levels. Whether you need an introduction to project management or is ready to dive into agile and lean practices.

Flexibility - We understand the demands of a busy work schedule.

Choose from in-person workshops, live online sessions, customized solution or on-demand courses to ensure that training fits seamlessly into your team's schedule.

A leading US-based healthcare provider with 200,000+ employees needed consistent management, value delivery and success across projects. With less than a third of their project managers certified, the company needed to add project management credentials & skills quickly. In less than 10 months, Learning Tree's cohort driven model upskilled their project management skills with 100 new PMPs, a 138% increase.
