- Real time, fully integrated statement portal delivering analytics and data insights
- Full mechanical royalties reporting
- Unlimited back-office user access, contracts and royalties
- Manages recorded music, music publishing and neighboring rights contracts and royalties

## How Technology Can Make a Difference

The rapid-fire changes in the digital music landscape and the mass adoption of streaming music have amplified sales transactions and the complexities arising from numerous income streams. Today's music companies are confronted with processing this unwieldy detail in an effective, efficient manner. Vistex provides a high-volume, easily configured solution poised for traditional, current and future music business trends. Contracts, metadata and all royalty activity are captured in a single system, which is used for registration, licensing, sales, royalty reporting, analytics and more. This enables music companies to manage all aspects of their industry in a single solution.

### About Vistex

Vistex solutions help businesses take control of their mission-critical processes. With a multitude of programs covering pricing, trade, royalties and incentives, it can be complicated to see where all the money is flowing, let alone how much difference it makes to the topline and the bottomline. With Vistex, business stakeholders can see the numbers, see what really works, and see what to do next – so they can make sure every dollar spent or earned is really driving growth, and not just additional costs. The world's leading enterprises across a spectrum of industries rely on Vistex every day to propel their businesses.
