Bug Match

God created every creature, even tiny little bugs, for a purpose!
Can you match each bug with its God-given purpose?

Ladybug

Butterfly

Bee

Spider

Ant

Grasshopper

Dragonfly

Snail

Fly

Worm

Caterpillar

Praying Mantis

I'm green and hop around while I fertilize soil after I am done eating.

I have a long skinny body with wings. I eat mosquitoes so they don't bite you!

I am a tiny creature who travels in a colony. Together we help the soil.

I have polka dots. I help protect our food plants by getting rid of the bad bugs.

I have a hard shell and move really slowly while I eat rotting plants.

I can be very colorful. I pollinate flowers to help more pretty blooms grow.

You may hear me buzzing by the trash. I help break it down and consume it.

I eat a lot so I can grow bigger and transform into ... can you guess what?!

I have a long green body and catch my prey with my front legs.

I buzz around pollinating flowers and plants that help us grow more food.

I have eight legs that help me spin webs to prevent pests from bothering plants.

I crawl in the dirt to give it more air and water, helping plants grow big and strong.

Bug Week

Family Discussion Guide

For we are God's masterpiece. He created us anew in Christ Jesus, so we can do the good things he planned for us long ago.

Ephesians 2:10 NLT

Learn:

What a wonderful world we live in! God created everything so beautifully and according to His grand design. **Isn't it amazing that we get to enjoy all that God made?** He's created every living thing with a purpose—including YOU! This week we're focusing on bugs . . . some of the tiniest creatures God made. Even the peskiest insects are part of God's purposeful design. **If He can use a buzzing bee to make plants and flowers grow, He can use YOU to do amazing things, too!**

Ask:

1. Talk about God's purpose for the bugs you see everyday. Why do you think God gave such important jobs to such small creatures?
2. What are some good things God created YOU to do?
3. How can the things you do help others just like these tiny creatures help creation?

Say: God created me on purpose!

Pray:

Dear God, thank You for creating even the tiniest creatures with a specific purpose. We know You made each one of us uniquely according to your plan. Please show us ways we can help make our world a more beautiful place to live! Amen.

Go!:

Spend some time outside this week marveling at God's wonderful world. Talk about ways you can help make our world a better place to live by doing your part to take care of creation. Think about your unique purpose and how God can use YOU to help other living things—plants, trees, animals, friends, family, even strangers!
