View of God

Our view of God shapes *everything* in life

Created by // Taylor Tollison

An understanding of WHO God is lays the foundation for you to grow in your relationship with God. One excellent way of understanding who God is can be achieved by studying the attributes or character qualities of God. When we see God more and more for who He is, our life will be transformed by that view. Many of the problems in the Christian life can be traced to an inaccurate view of God.

DISCUSSION QUESTIONS

1. If you were to focus on God's attributes / character consistently, how would this affect your relationship with God? With others? Your ministry? Your faith? Your prayer life?
2. Which of these attributes is easiest for you to comprehend? The most difficult? Explain.
3. What are some ways to keep these attributes on the forefront of your mind? How can we approach our life, our ministry, our campus, with these truths about God shaping our approach rather than the lies we tend to believe?
