

COASTLINE STOREFRONT

COASTLINE STOREFRONT

Marvin Coastline all aluminum windows and doors combine a beautiful aesthetic, design flexibility, and rigorous impact performance. Available in select southeast coastal regions, Coastline products meet the most stringent hurricane impact code requirements in North America.

PRODUCT TYPES

The Coastline Storefront products are perfect for establishing an impressive business facade but are commonly used on homes to capture amazing views. There are three different Storefront product types.

STOREFRONT 4 1¹/₁₆"

- A single, fixed rectangular window with traditional glazing
- Can be used to create an oversized window wall featuring a single frame with true divided lites

STOREFRONT 6 5⁸"

- Glass is nearly flush with the outer edge of the window frame
- Can be mullered together with other Storefront 6 5⁸" windows

STOREFRONT 7 5⁸"

- Glass is glazed flush to the outer surface of the frame
- Can be mullered together with other Storefront 7 5⁸" windows

IMPACT RESISTANT GLASS***

Coastline products feature impact resistant glass that is designed to protect your home against damage caused by hurricane force winds. Coastline Storefront Glass and Glazing options include:

- 7¹/₁₆" laminated PVB
- 9¹/₁₆" laminated PVB or SGP
- 1 1⁴/₄" insulated laminated PVB or SGP
- 1 1⁴/₄" insulated laminated decorative PVB
- White interlayer

FRAME STYLES

Each storefront product features a unique glazing design

Storefront 4 1¹/₁₆"

Storefront 6 5⁸"

Storefront 7 5⁸"
