WE BRING LEARNING TO LIFE™

# The Classroom is Where You Are with AnyWare® by Learning Tree

Whether you're at home or the office, keep your professional goals moving forward with AnyWare — Learning Tree's live, online attendance platform that lets you experience the same instructor-led training as in person or in class.

The same live, instructor-led classroom experience  
**From the comfort of your home.**

**Trusted globally**  
by Fortune 100 companies and local brands alike.

You receive an **engaging learning experience** — no matter where you are.

## What Makes AnyWare Different?

### Train the Trainer:

We train our instructors to be AnyWare superusers, ensuring a consistently exceptional and engaging learning experience every time.

### Technical Support:

Our AnyWare Technical Support Team is a click away to help you get up and to answer questions any time during your course, so you can immerse yourself in a distraction-free learning experience.

### After-Course Support:

With added after-course benefits like Computing Sandbox and Instructor Coaching, you'll have the support you need to apply your new skills with confidence back on the job.

### 100% Satisfaction Guarantee:

You're guaranteed to love the AnyWare experience, so you can trust that your team will develop the knowledge, skills, and abilities needed to advance your organization.

WE BRING LEARNING TO LIFE™

# What AnyWare Attendees are Saying:

“Our experience with AnyWare has been extremely positive. The students who attend online receive the same high-quality presentation as those who participated in the classroom and, more importantly, gain the same rich lab experience they have come to expect from a Learning Tree course.”

— R. Eldridge, *Director, Services Education*  
EMC Corporation

“In my past training with a different training provider, I had a bad experience taking a remote class. But my Learning Tree AnyWare experience was great! The audio, video, and all aspects of the remote session were very good. I learned a lot in this course, and it will help me tremendously on my current project.”

— T. Paugh, *IT Specialist*  
U.S. Department of Agriculture

“The AnyWare interface was straightforward and easy to use. Our instructor was very good at interacting with the students both in the classroom and online through AnyWare. I would definitely recommend AnyWare to my colleagues.”

— S. Esmaili, *Configuration Manager*  
Ericsson

“Even though I was an AnyWare online participant, the interaction I had with my instructor was the best — he knew the technology and made me feel as if I was sitting right there in the classroom.”

— M. Mitchell, *Database Administrator*  
MetLife

“Taking my course online with AnyWare was a great experience. The instructor never forgot about me, and went out of his way to ensure that I was very much a part of the class.”

— M. Burke, *Business Analyst*  
Fidelity Information Services

“I joined my class remotely from home via the Learning Tree AnyWare platform, which eliminated workplace distractions. Our instructor did a fine job of making the remote participants feel like a part of the class, and the course content has prepared me to successfully pass the PMP exam”

— D. McRae, *IT Portfolio Manager*
