

# Uploading .uxp files into UXPin

To open a .uxp file, you need to import it to UXPin.

- 1 Go to your project dashboard.
- 2 Drag and drop the file anywhere onto the dashboard. Or, you can use the **Import Sketch, images or other** option in the bottom left corner to locate the .uxp file on your computer and upload it.
- 3 The file will import as a new prototype.
